Make More Happen

Preparation time: 40 min Baking time: 20 min Yield: 16 servings

Cake Ingredients

- 3 cups all-purpose flour
- 1 tablespoon baking powder
- 1/2 teaspoon salt
- 1 1/2 cups sugar
- 1/2 cup LAND O LAKES® Butter, softened
- 6 egg whites
- 1/2 teaspoon almond extract
- 1 cup milk

Filling Ingredients

- 1 (10-ounce) package frozen raspberries in syrup, thawed
- 2 tablespoons sugar
- 2 tablespoons cornstarch

Frosting Ingredients

- 1/2 cup milk or LAND O LAKES® Half & Half
- 6 (1-ounce) squares white baking chocolate
- 4 1/2 cups powdered sugar
- 1/2 cup LAND O LAKES® Butter, softened

Garnish Ingredients

White chocolate curls, if desired

Heat oven to 350°F. Grease and flour one (9-inch) round and one (9-inch) square baking pan. Set aside.

Stir together flour, baking powder and salt in medium bowl. Set aside.

Beat sugar and butter in large bowl at medium speed, scraping bowl occasionally, until creamy. Add egg whites, one at a time, beating well after each addition. Add almond extract. Reduce speed to low. Add flour mixture alternately until mixed.

Place 2 1/2 cups batter into prepared round pan; place remaining batter into prepared square pan. Bake for 25 to 34 minutes or until toothpick inserted near center comes out clean. Cool on wire rack 10 minutes. Loosen cakes by running knife around inside edge of pans. Carefully remove cakes from pans; cool completely.

Meanwhile, all filling ingredients in 2-quart saucepan. Cook over medium heat, stirring constantly, until mixture comes to a boil (5 to 7 minutes). Boil 1 minute; remove from heat. Refrigerate 30 minutes or until cool.

Place 1/2 cup milk and 6 ounces white chocolate in 1-quart saucepan. Cook over low heat, stirring occasionally, until chocolate is melted (7 to 8 minutes). Cool 30 minutes.

Combine cooled chocolate mixture, powdered sugar and 1/2 cup butter in small bowl. Beat at medium speed, scraping bowl often, until creamy.

Cut cakes horizontally in half into layers using serrated knife. Cut round cake vertically in half.

To assemble: place bottom of square cake layer onto serving plate or tray; place bottom halves of round layer on two adjacent sides of square layer, forming a heart. Spread with filling. Place top half of each cake layer on filling. Frost top and sides of cake with frosting. Garnish with chocolate curls, if desired.

Recipe Tip

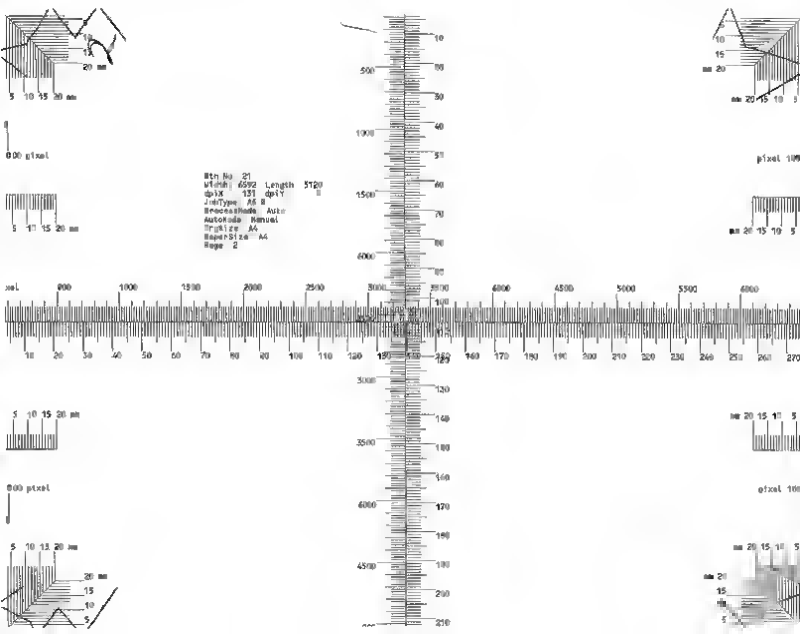

To cut cakes horizontally in half into layers, mark side of cake with toothpicks first before cutting with long serrated knife.

Recipe Tip

To make white chocolate curls, place room temperature white baking chocolate onto waxed paper. Pressing vegetable peeler firmly against chocolate, pull across chocolate in long, thin strokes.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, the site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Cranberry Salad

Recipe courtesy Paula Deen

Prep Time:	15 min	**Level:**	**Serves:**
Inactive Prep Time:	4 hr 0 min	Easy	8 servings
Cook Time:	3 min		

4-ounce can crushed pineapple

3-ounce package black cherry gelatin

8 ounces dried cranberries, rinsed

1 cup broken pecans

1/2 cup sugar

Parsley, for garnish

Sour cream or whipped cream, for garnish

Drain pineapple and reserve juice. Add juice to 1/2 cup hot water and heat to boiling. Soften gelatin in 1/4 cup cold water. Dissolve softened gelatin in hot water-juice mixture. Let cool until it starts to set, don't let the gelatin harden. Put cranberries through a grinder. Add ground berries, pineapple, nuts, and sugar to cooled gelatin mixture. Mix well. Pour into a bowl or mold. Refrigerate until completely set. Place mold in a warm water bath and run a knife around the edges to loosen. Invert onto a serving plate, garnish with parsley and a dollop of sour cream or whipped cream.

A Patch of Old Snow

There's a patch of old snow in a corner
That I should have guessed
Was a blow-away paper the rain
Had brought to rest.

It is speckled with grime as if
Small print overspread it,
The news of a day I've forgotten--
If I ever read it.

Today, each day, I choose love.

I choose joy. Today, I will refuse the temptation to be cynical.
I will see each situation as an opportunity to see God

I will choose peace. Today, I will live forgiven so that I may forgive

I will choose patience. Today, I will overlook inconveniences.
Rather than complain that the wait is too long,
I will thank God for a moment to pray

I will choose to be kind. Today, I will be courteous to all people
Even when I am inconvenienced I will take time to listen,
letting people know they matter.

I will choose goodness. Today, I will help people where I can
I will strive to unburden people rather than burdening them down.
I will be a force for good and not for evil.

I will choose faithfulness. Today, I will keep my promises.
I will be known as a person of my word who can always be trusted.

I will choose gentleness. Today I will not persuade by force, but through
love and truth, I will let the Holy Spirit be the ultimate referee

I will choose self-control. Today, I will allow the Holy Spirit
to control my mouth and my body. I will seek His glory and not my own
selfish desires and wants. I will refuse to let what will not rule the eternal

- May you this Christmas Season (and all year for that matter)
choose to be like Jesus. He came into this world to be the Hope of real
transformation. May His life be the life that lives in you and through you.

Following Him,

Pastor Frank

What we are	
Who is providing this notice?	This notice is provided by Citibank, N.A. for individual clients of its retail banking business in the United States

What we do	
How does Citibank protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures to comply with federal law. These measures include computer safeguards and secured files and buildings
How does Citibank collect my personal information?	We collect your personal information, for example, when you ▪ provide account information or give us your contact information ▪ provide employment information or apply for a loan ▪ make deposits or withdrawals from your account We also collect your personal information from others, such as credit bureaus, affiliates, or other companies.
Why can't I limit all sharing?	Federal law gives you the right to limit only ▪ sharing for affiliates' everyday business purposes – information about your creditworthiness ▪ affiliates from using your information to market to you ▪ sharing for nonaffiliates to market to you State laws and individual companies may give you additional rights to limit sharing. See below for more on your rights under state law.
What happens when I limit sharing for an account I hold jointly with someone else?	Your choices will apply to everyone on your account – unless you tell us otherwise

Definitions	
Affiliates	Companies related by common ownership or control. They can be financial and nonfinancial companies. ▪ *Our affiliates include companies with a Citi name; financial companies such as Citimortgage, Inc., Citibank (South Dakota), N.A., Citigroup Global Markets Inc. and Banamex USA*
Nonaffiliates	Companies not related by common ownership or control. They can be financial and nonfinancial companies ▪ *Nonaffiliates we share with can include companies engaged in direct marketing and the selling of consumer products and services.*
Joint marketing	A formal agreement between nonaffiliated financial companies that together market financial products and services to you

Other important information	
For Vermont Residents: We will not share information we collect about you with nonaffiliated third parties except as permitted by Vermont law, such as to process your transactions or to maintain your account. In addition, we will not share information about your creditworthiness with our affiliates except with your authorization.	
For California Residents: We will not share information we collect about you with nonaffiliated third parties except as permitted by California law, such as to process your transactions or to maintain your account

Our Father which art in heaven
hallowed be thy name
thy kingdom come,
thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses
as we forgive them that trespass against us
And lead us not into temptation
but deliver us from evil
[For thine is the kingdom,
the power and the glory
for ever and ever.]

Black Bodies, White Gazes

The Continuing Significance of Race in America
Second Edition
By George Yancy
Foreword by Linda Martin Alcoff

"George Yancy offers readers what has historically been philosophical in thought and intent, while remaining clear. His work that is life-enhancing. Given the rise in racist terrorism and white supremacy globally we are made to need than ever of work that shows us how our society places democracy at risk by upholding and maintaining systems of domination. Yancy's book highlights the issues and offers strategies for change."
—Bell Hooks

Following the deaths of Trayvon Martin and other Black youths in recent years, students on campuses across America have joined professors and activists in calling for justice and increased awareness that Black Lives Matter. In this second edition of his trenchant and provocative book, George Yancy offers students the theoretical framework they crave for understanding the violence perpetrated against the Black Body. Drawing from the lives of Dolen Perkins, Franz Fanon, Malcolm X, and W. E. B. DuBois, as well as his own experience, and fully updated to account for what has transpired since the first of the Black Lives Matter movement, Yancy provides an invaluable resource for students and teachers of courses in African American Studies, African American History, philosophy of Race, and anyone else who wishes to examine what it means to be Black in America.

White Privilege and Black Rights

The Injustice of U.S. Police Racial Profiling and Homicide
By Naomi Zack

"We associate philosophy with insights into timeless matters, but philosophy is also capable of sharply illuminating the here and now. In this courageous intervention in the debate on a subject that has galvanized national attention—the police killings of unarmed young black men—philosopher Naomi Zack challenges conventional wisdom for Black and white, urging a rethinking of our conceptions of white privilege and the best approach to theorizing social justice."
—Charles W. Mills, CUNY Graduate Center

Examining racial profiling in American policing, Naomi Zack argues against white privilege discourse while introducing a new theory of applicative justice. Zack draws clear lines between rights and privileges and between justice and existing laws to make sense of the current crisis. This urgent and immediate analysis of the killings of unarmed Black men by police officers shows how racial profiling matches identities of the police population with disregard for the constitutional rights of the many innocent people of all races. Moving the discussion from white privilege discourse to the rights of blacks, from ideas of white supremacy to legally protected police impunity and from ideal and moralized justice theory to existing injustice, *White Privilege and Black Rights* examines the legal structure that has permitted the killings of Trayvon Martin, Michael Brown, Eric Garner, Tamir Rice, and others. Deepening understanding without stimulating heat, Zack shows why it is more important to examine Black rights than white privilege as we move forward through today's culture of inequality

Special Features:
- Critique of white privilege discourse and emphasis on rights as first claims
- Survey of theories of justice and race, the core of laws governing police action, profiling and crime committed to give students a factual basis for discussion of current events and their implications
- Encourages formulation of solutions to problems in today's world

Dear Mr and Mrs Fairchild,

Your generous support is helping the San Diego Humane Society to serve more animals than ever before Thank you for all you do to make our work possible

Enclosed is an Impact Report on some of our key initiatives over the past fiscal year, along with goals for the current year I am sending this to you as one of my periodic updates promised to our Companion Circle Annual Giving Club members

Because of our generous donors, the San Diego Humane Society and SPCA has been able to save the life of every healthy *and* treatable animal coming into our care for the past 13 years

Fortunately, every healthy animal entering San Diego Animal Welfare Coalition shelters is able to be placed in a new home Working together, we are now striving to ensure that every "treatable" animal receives the care needed to be made available for adoption This is made possible only because of your generous, ongoing support

Thank you again for your confidence in our work, and for your ongoing support If you have any questions please feel free to contact me or Shelly Stuart, Senior Vice President & Chief Development Officer My email address is garv@sdhumane.org You can reach Shelly at co@sdhumane.org, or by calling her at (619) 243 3410

Trail Sheet #4 Question and Data Sheet

What question about termite tracking behavior can be answered using this trail sheet?

How the thermite react to cut in burrows like in colony

Record your observation from your test using Trail Sheet 4 in the table below

	Observations			
	Trail with no gap	Trail with 1-mm gap	Trail with 1-cm gap	Trail with 2-cm gap
Trial 1	Follow	follow don't stop as gap	Followed and when off course	follow the line but then follow at opposite angle
Trial 2	Follow	same as above	Same as tested	Same test
Trial 3	Follow	Same as before	Same as test	Same test

What can you conclude from your observations?

Thermite follow a linear path as closely as possible

Donkey in The Well

One day a farmer's donkey fell down into a well. The animal cried piteously for hours as the farmer tried to figure out what to do.

Finally, he decided the animal was old and the well needed to be covered up anyway, it just wasn't worth it to retrieve the donkey

He invited all his neighbors to come over and help him. They all grabbed a shovel and began to shovel dirt into the well

At first, the donkey realized what was happening and cried horribly. Then, to everyone's amazement he quieted down.

A few shovel loads later, the farmer finally looked down the well. He was astonished at what he saw. With each shovel of dirt that hit his back, the donkey was doing something amazing. He would shake it off and take a step up.

As the farmer's neighbors continued to shovel dirt on top of the animal, he would shake it off and take a step up. Pretty soon, everyone was amazed as the donkey stepped up over the edge of the well and happily trotted off!

Life is going to shovel dirt on you, all kinds of shit. The trick to getting out of the well is to shake it off and take a step up. Each of our troubles is a stepping stone. We can get out of the deepest wells just by not stopping, never giving up! Shake it off and take a step up.

NOW ------

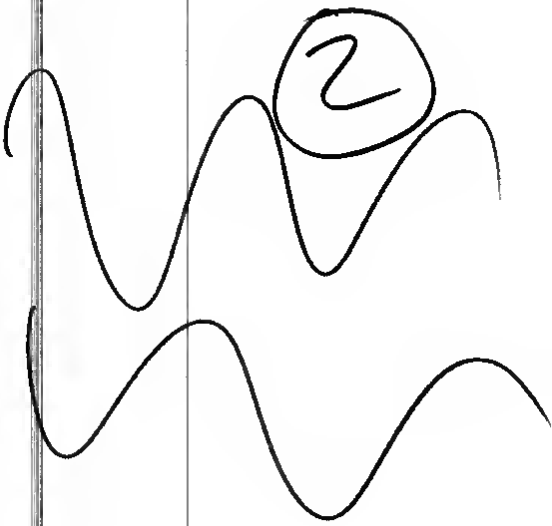

Enough of that crap

The donkey later came back and bit the shit out of the farmer who had tried to bury him. The gash from the bite got infected, and the farmer eventually died in agony from septic shock

MORAL FROM TODAY'S LESSON!

When you do something wrong and try to cover your ass, it always comes back to bite you.

CancerTYPE ID

Molecular Classification with CancerTYPE ID

FFPE Tissue Processing & Tumor Enrichment

- CancerTYPE ID requires as few as 300-500 viable tumor cells and is compatible with limited biopsy specimens such as FNAs, cytological specimens, and small core needle biopsies
- CancerTYPE ID routinely employs laser guided microdissection to enrich for tumor specimen

Gene Expression Profiling

- CancerTYPE ID uses a robust real-time RT-PCR platform to detect very small differences in gene expression
- CancerTYPE ID measures and integrates the gene expression of 92 genes, 5 normalization genes and 87 lineage determinant and tissue-specific genes, most of which are not routinely measured by IHC

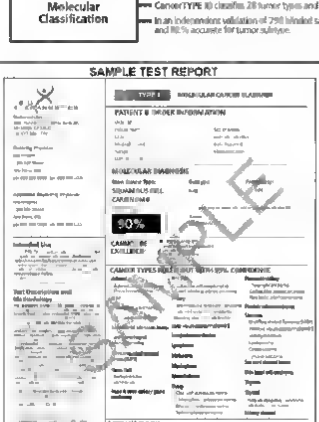

Reference Tumor Database & Algorithm

- CancerTYPE ID uses a computational algorithm to predict the patient's tumor type based on the degree of similarity of the sample's 92-gene expression profile to a reference database of gene expression profiles. The reference database contains gene expression information from over 2,000 tumor specimens of known histogenesis, and representing ~95% of all solid tumors based on incidence
- the CancerTYPE ID algorithm provides a predicted main type and any sub-types in rank-order by relative probabilities, which are based on the tumor's gene expression similarity to tumors of these types in the reference database

Molecular Classification

- CancerTYPE ID classifies 28 tumor types and 50 tumor subtypes.
- In an independent validation of 2998 blinded samples, the molecular diagnosis was 87% accurate for main tumor type and 86% accurate for tumor subtype.

SAMPLE TEST REPORT

Interpreting CancerTYPE ID Test Results

MOLECULAR DIAGNOSIS
The tumor type with the highest probability is reported as the molecular diagnosis. In this example, the patient's tumor has 90% probability of matching squamous cell carcinoma (non-lung subtype) within the CancerTYPE ID reference database. If the highest probability is <70% the tumor is reported as indeterminate. In this case, the test report will still indicate tumor types that can be ruled out and those that cannot be excluded.

CAN NOT ID EXCLUDED
When applicable, tumor types from the CancerTYPE ID reference database that show some gene expression profile similarity to the patient's sample such that they cannot be excluded from diagnostic consideration will be listed here in relative rank order

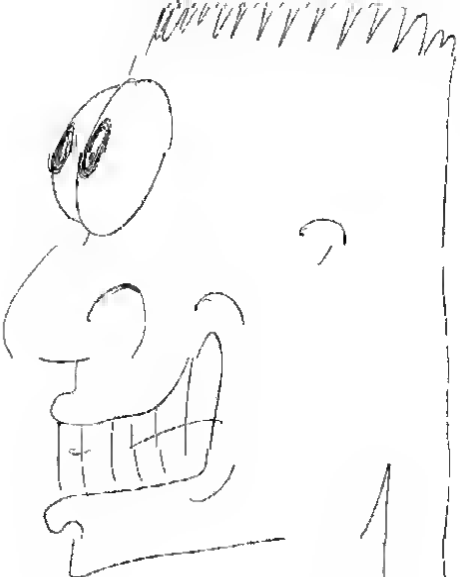

RULE OUTS
The CancerTYPE ID test report also lists tumor types that can all be ruled-out with 95% confidence. In an independent validation of 2998 blinded reported Rule-outs were 95% accurate. This may provide useful differential diagnostic information when two or more potential tumor types are suspected and one or more cannot may be indicated in the test note.

You're
Very Special
to Me
and I Feel Blessed
to Have You
in My Life

I believe
that God
brings
certain people
into our lives
for a reason...

though they may both be quite wrong—but it does commit each of them to saying that a belief system can hang together very well and not be true.

That is, if you're on the left, you probably think the right is getting its information from bad sources, believing whatever serves its agenda, producing a false worldview. If you're on the right, you likely believe that the mainstream media is feeding people slanted information, a false narrative. But both sides agree the coherence of their opponent's worldview is irrelevant to its truth. In some ways, the better it hangs together, the more dangerous and deluded it is.

Likewise, truth cannot be a matter of social consensus. That groups are in agreement has no tendency to show that what they believe is true, or else flat contradictions are true in a situation in which we are polarized into groups with contradictory beliefs. As consensus tightens, it degenerates into self-confirmation and collective delusion. Each side already believes this about the other, so each side is committed to the view that truth is something more than agreement. Nor can "truth" mean merely what works, if by "works" one means persuading people or guiding their behavior or opinions in some desirable direction.

That makes it very odd to formulate the issue in terms of alternative realities or the disintegration of truth itself. Both sides need the truth, and they need it not to be relative to any group's particular set of beliefs—or they need to stop attacking their opponents. There's nothing unusual about a situation in which people disagree about what the truth is, and the concept of truth itself is not particularly at stake right now.

It's a bizarre misapprehension, in short, that truth is disintegrating or in crisis. Fabrications do not undermine truth—they presuppose it. Lies can harm people, but they can't harm truth itself. They conceptually depend on it. The right conclusion from all this isn't that truth is disintegrating, but that truth is hard and intrusive: that it does not readily bend to human will or agreement or narrative. The power of the Russian intelligence services or a Sean Spicer press briefing is considerable, but it does not include the ability to bend the fabric of reality.

Mr. Sartwell, a professor of philosophy at Dickinson College, is author of "Entanglements: A System of Philosophy" (State University of New York, 2017).

Troubleshooting Steps

The steps below will help you resolve common faxing problems:

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-In-One device, temporarily disconnect device from PC

Windows® Fax and Scan

[illegible]

Use Windows Fax and Scan to send and receive faxes on your computer or on any fax machine you can send and receive faxes using a fax modem or a network connection. You can also print e-mails or save a copy of your faxes.

To get started:

1. [illegible]

   If you don't see a fax modem listed, the device might not be set up correctly. Check the documentation that came with your device for more information.

2. [illegible]

3. [illegible]

You might also want to set up a cover page to use when you send faxes. For more information, click the Help button on the toolbar.

Scanning documents or pictures to your computer is easy. You can choose your scanner's default settings for the type of file (such as JPEG or TIFF) and the folder where you want to save your scans, or you can customize the settings each time you scan.

To scan a picture:

1. Connect your scanner to your computer and turn it on. If you haven't already done so, install any software that came with your scanner.

2. [illegible]

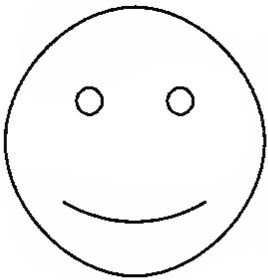

3. [illegible]

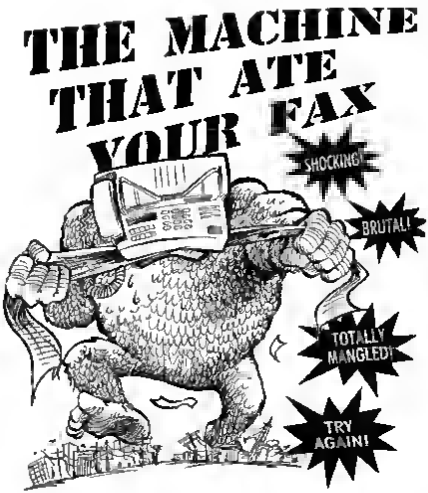

4. [illegible]

A dial tone was not detected

Please check the items below then rerun this test.

Other equipment sharing the fax line can reduce the signal strength.

Disconnect any equipment which is sharing the fax line (including extension phones, answering machines, and dial-up PC modems).
If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack.

If your HP device is connected to a Private Branch Exchange (PBX) rather than the public telephone system, the Dial Tone Detect test may fail.

However, you should be able to successfully send and receive faxes.

Refer to your User Guide for more information on the fax test and settings.

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers O St Joseph, I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph, Patron of departing souls pray for us Amen

Say for nine consecutive mornings for anything you may desire It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle

Make this prayer known everywhere

Imprimatur

VoIP Assistant

Adapting Fax-Capable Machines and VoIP
All Appropriate reliable machines, [Telephone and Voice-Internet Capable] are designed to interconnect a Public Switched Telephone Network (PSTN). This is not historically common phone machines, sending machines, sending type of machines intends to beginning connection. Voice over Internet Protocol [VoIP] is frequently referred to as a Digital or Internet Phone.

The most machines browser the link is that a PSTN connection is a direct, dedicated and between the two phone relationship and sending the call up two ends "points" and dedicated data over the networks for consistent, reliable sending sending performances, the use of a PSTN line. While reliable browser are capable of both voice and sending the straightforward nature of the networks why Cable dedicated that result in unsatisfactory performance.

Noteworthy of common machines that are not normally reliable to digital over VoIP:

1. Sin dial tone.
2. Fax machine not reliable

For help with these machines, please go to our online FAQs [http://www.brother-usa.com/support/voip/default.aspx], select your model and search for "No Dial Tone" or "Internet ready"

Examples of common machines that may be phone to phone over VoIP:

1. Fax and reading browser machine reliable but will not reliable
2. Fax call to internet and reliable machine but will not internet
3. Call [sending or receiving] reliable and performance alerts but then disconnects.
4. Call [sending or receiving] reliable and transmission starts but only 1 to 2 pages are sent before call transaction
5. Transmission Verification Report routinely shows "Poor Line Condition"
6. Faxes will not machines or reliable areas of day but work fine at other times
7. Faxes will not complete to certain phone numbers but work fine with other numbers

phone Check the page page [beginning sending for these reasons

Improving Your browser with VoIP
There are several steps you can take that may browser your reliabilities using a sending fax-capable browser on a VoIP line. Please note reliable does not guarantee these steps can provide satisfactory performance.

Inside Story 7

Inside Story 8

You may want to write a short story about this picture. This story could be about how the picture was taken, what is happening in the picture, or anything else that relates to the picture. You decide what is important about the picture and write about it in this space. You may want to refer to the picture in another story in the newsletter.

Caption describing picture or graphic.

The purpose of a newsletter is to present newsletter information to a targeted audience. Newsletters can be a great way to market your product and your ideas, and also create credibility as an authority on your industry. Consider using newsletters to: impress customers, promote products, announce events, or introduce new employees.

Determine the audience of the newsletter. This could be anyone who has a need to know the information you have, or anyone you want to have the information. Some examples: employees or people interested in becoming employees or requesting your services.

Write important news and information. You want your newsletter to be a source of information that your readers will look forward to receiving. Some ideas: success stories, product updates, newsletter statistics, or an employee of the month section.

Remember your audience when you write articles for the newsletter. Use language that is appropriate for your readers. Avoid technical terms that your readers may not understand. Define terms that may be unfamiliar to your readers.

Try to limit each story to a few paragraphs. Use bullets to highlight important points. Include only the most important facts. People rarely read every word in a newsletter, but they usually read enough to get the general idea. Provide additional resources for those readers who want more information.

Use graphics to illustrate your points. Pictures, charts, and graphs can help highlight important points in your publication. Readers generally remember more of what they see than what they read. Be sure to choose graphics that support your publication's theme and add information.

Be consistent with the publication info. Consistency helps to develop a publication that readers recognize immediately. Consistency includes using the same nameplate, publication info, and placement of standing elements every time the publication is printed. Consistency helps to develop reader habits.

Secondary Story Headline

Your headline is an important part of the newsletter and should be considered carefully. In a few words, it should accurately represent the content of the story and encourage readers to read the story. Don't use a headline that is too long or too short. Generally, the headline should be between two and seven words long. Avoid using words that do not add information to the headline. Words such as "a," "an," and "the" usually can be omitted without changing the meaning of the headline.

Open with the You.

Keep the news focused on topics of your readers. Consider including Product Updates, Company Awards, New Employees, Customer Success Stories, Announcements, and New Office Openings.

SECTION 8 – INSTRUCTIONS FOR COMPLETING THE FORM

Type or print using dark ink. Enter dates as month-day-year (e.g., mm-dd-yyyy). Use only numbers. Example: January 31, 2014 – 01-31-2014. Include your name and account number on any documentation that you are required to submit with this form. If you need help completing this form, contact your loan holder. If you want to apply for a repayment plan or loan rehabilitation and my different loan holders, your most recent submitted request to each loan holder.

Return the completed form and any required documentation to the address shown in Section 7.

SECTION 9 – DEFINITIONS

- **The William D. Ford Federal Direct Loan (Direct Loan) Program** includes Direct Subsidized Loans, Direct Unsubsidized Loans, Direct PLUS Loans, and Direct Consolidation Loans.
- **The Federal Family Education Loan (FFEL) Program** includes Federal Stafford Loans (both subsidized and unsubsidized), Federal PLUS Loans, Federal Consolidation Loans, and Federal Supplemental Loans for Students (SLS).
- **The Income-Based Repayment (IBR) plan** is a repayment plan with monthly payments that are limited to 15% (10% if you are a new borrower) of your discretionary income, divided by 12.
  - **Discretionary income** for this plan is the amount by which your adjusted gross income exceeds 150% of the poverty guideline amount for your state of residence and family size. To initially qualify for the Pay As You Earn plan and to continue making income-based payments under this plan, you must have a partial financial hardship (see definition) and be a new borrower (see definition).
  - **Eligible loans for the Pay As You Earn plan** are Direct Loan Program loans received by a new borrower other than (1) a loan that is in default, (2) a Direct PLUS loan made to a parent borrower or (3) a Direct Consolidation Loan that repaid a Direct or Federal PLUS loan made to a parent borrower. FFEL Program Loans, Federal Perkins Loans, HEAL loans or other health education loans and private education loans are not eligible to be repaid under the Pay As You Earn plan.
  - **You are a new borrower for the Pay As You Earn plan** if: **(1)** you have no outstanding balance on a Direct Loan or FFEL Program loan as of December 1, 2007 or have no outstanding balance on a Direct Loan or FFEL Program loan after you obtain a new loan on or after October 1, 2007, and **(2)** you receive a disbursement of a Direct Subsidized Loan, Direct Unsubsidized Loan or a Direct PLUS Loan made to a student borrower on or after October 1, 2011, or you receive a Direct Consolidation Loan based on an application received on or after October 1, 2011. However you are not considered a new borrower if the Direct Consolidation Loan you receive repays loans that would make you ineligible under part (1) of this definition.
- **The Income-Contingent Repayment (ICR) plan** is a repayment plan with monthly payments that are the lesser of: **(1)** what you would pay on a 12-year standard repayment plan adjusted by an income percentage factor or **(2)** 20% of your discretionary income, divided by 12.
- **The Pay As You Earn plan** is a repayment plan with monthly payments that are limited to 10% of your discretionary income, divided by 12.

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

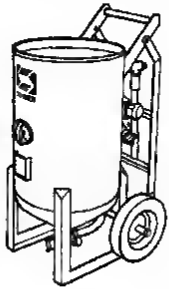

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Tax — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a larger version.

To test the receive functionality of your fax machine point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

MammaPrint Result

Low Risk

[redacted] outcome of the MammaPrint 70 gene expression profile. The MammaPrint result is calculated from a correlated index based on [redacted] Breast Tumors with patient [redacted] This categorized Low Risk result [redacted] a less than [redacted] risk of distant metastasis-free survival (MFS) at [redacted] years. [redacted] For breast cancer cases, Low Risk results are on average [redacted] more [redacted] 95% [redacted] treatment-free MFS at [redacted] years. Treatment-free High Risk [redacted] 5-year MFS rate of 71% without any systemic adjuvant treatment.

Additional Comments:
Clinical validation for MammaPrint was performed on only female breast cancer patients. Clinical correlation for a male breast cancer patient is advised.

Assay Description

[redacted] used to [redacted] A description of MammaPrint with fresh tissue for patients of all ages with evaluable breast cancer whether tumor is [redacted] ductal, except breast (ILC+) [redacted] outside the U.S., plus [redacted] MammaPrint has acquired an additional clearance in compliance with [redacted] for fresh and formalin fixed paraffin-embedded (FFPE) breast cancer tissue for patients with up to 7 [redacted] lymph [redacted] 3 tissue cancer patients. The test is performed using a microarray-based gene expression profile that was independently [redacted] [redacted] gene known. An unbiased, supervised analysis of the entire human genome, 25,000 genes, followed by a leave-one-out cross-validation procedure [redacted] the 70 critical genes that distinguish patients as High Risk vs. Low Risk of metastasis. Therefore this MammaPrint result provided [redacted] clinically validated, statistically significant, additive information to all-patient to help them decide on treatment in early stage breast cancer patients.

Based on the analytical performance of MammaPrint, the precision of classifying a sample as High Risk or Low Risk is 98% for fresh and 97.3% for FFPE, and the repeatability of the cross-validated is 99.5% for fresh and 97.8% for FFPE. Furthermore, when a fresh sample's MammaPrint index (MPI) falls within a pre-defined area, whereby the classification will fall between [redacted] and +0.0073, the classification accuracy is less than 90%.

CONSENT FOR ORGAN/TISSUE DONATION

0012 053 864

The Need is Great

More than 4 000 Canadians are waiting for organs, about 140 of them are Nova Scotians. Many more are waiting for a tissue transplant. An organ/tissue transplant will give these people a second chance to live a full life. Research shows that the vast majority of Nova Scotians support organ and tissue donation. Yet only one in two have registered as a donor. You now have the opportunity to offer someone a second chance at life by:

- Registering to become an organ/tissue donor
- Talking to your family and making your wishes known

Please specify which organ(s) and/or tissue(s) you wish to donate

○ Donate all of the organ(s) and tissue(s) needed for transplant.

OR

○ Only the following organ(s) and/or tissue(s) needed for transplant.

Organs	Tissues
○ Lungs	○ Skin
○ Heart	○ Vein
○ Liver	○ Eyes
○ Kidneys	○ Bone and Related Structures
○ Pancreas	○ Heart Valves/Pericardium
○ Small Bowel	

For information about organ donation, please call: 902-473-5523 or toll-free 1-877-841-3929.
For information about tissue donation, please call: 902-473-4171 or toll-free 1-800-314-6515

Your signature is required for organ and/or tissue donation. A parent/guardian must sign for dependents under the age of 16. Your organ donor decision will be stored in a computerized donor registry and will appear on your new Health Card. Your donor decision must be renewed each time your Health Card is renewed. Consent to organ donation is voluntary and is not required for Health Card eligibility.

Date: _____ Signature _____

Please return your organ donor form to MSI Registration and Enquiry. Mail to MSI PO Box 500, Halifax, NS B3J 2S1 or fax to 902-481-3160. For Health Card information call 902-496-7008 or 1-800-563-8880.

GET YOUR NEW THIN CLIENT SYSTEM UP AND RUNNING

Congratulations—welcome to enhanced security, reduced cost, less risk and a system that's a whole lot easier to manage.

HP ThinPro thin clients help improve productivity with quick deployment of simple, familiar and more reliable computing experiences.

It's easy to get started

This quickstart guide illustrates some of the most common tasks of setting up an HP ThinPro thin client. It's designed to help you get up and running right out of the box. However, if you have questions, need more information or want to set up a more unique configuration, please refer to the HP ThinPro Administration Guide at **www.hp.com/support/manuals/thinclients**. Select your thin client and its respective guide under *General Reference*.

LOGGING ON AND GETTING STARTED

The HP ThinPro interface appears when you first turn on the thin client and defaults to User Mode.

User Mode

- Allows restricted rights to subset of access connection creation and control panel applications. Allows restricted rights to subset of access connection creation and control panel applications.

Administrator Mode

- Allows full access to control panel applets, manipulation of HP ThinState Capture and Deploy, FTP images, etc.
- Does not watch connections and connection types are visible when in User Mode, and limits users on deleting connections or creating new ones.

Note: You must log in with administrator permissions to access all components of the HP ThinPro user interface. The default password for Administrator Mode is: root

To switch between User and Administrator mode:

1. Click the HP logo in the bottom left of the screen

or

2. Position your cursor in the screen background and right-click. Then select ***Administrator/User Mode Switch***

3. Enter your password

Quick tip

To determine if you are in User or Administrator mode:

A blue banner at the top of the console window designates User Mode.

A red banner at the top of the console window designates Administrator Mode.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

SILENT REFLUX SYMPTOMS

Although most people think acid reflux only causes heartburn, there is a growing interest in another form of reflux, which causes mostly respiratory symptoms. This form of reflux, known as supraesophageal reflux disease (SERD) or laryngopharyngeal reflux (LPR), is caused by acid from the stomach regurgitating into the throat, mouth, nasal passages and even the lungs, resulting in symptoms such as chronic cough, hoarseness, nasal and throat decay. Supraesophageal reflux can be challenging to diagnose and treat, in part because it often goes unrecognized. Therefore, it is often referred to as "silent reflux" ("silent" for the lack of heartburn). Also, unlike heartburn-causing reflux, SERD often does not respond to antacid medications, making treatment a challenge.

In an article recently published in *The Journal of Allergy and Clinical Immunology: In Practice*, Drs. David Stein and Ronald Simon explored the prevalence and timing of SERD and investigated the efficacy of head-of-bed elevation in its treatment.

The authors reviewed charts from over 200 subjects evaluated at Sar pso C nic Health Division of Allergy, Asthma and Immunology, who had undergone a special overnight pH monitoring study to look for acid within the throat. Subjects found to have acid reflux in the throat were classified based on which position they were in when reflux was observed: they were classified as in their upright, lying down, or both. Among patients who only experienced acid reflux while lying flat, the authors repeated the pH monitoring after elevating the head of bed by 6 inches. The repeat pH readings were then analyzed to determine if the simple lifestyle intervention could prevent and even reverting the threat.

A total of 238 patients were instructed acid reflux was detected in 113 (48%) of patients. Most patients (88%) exhibited reflux only when lying flat, while 42% had reflux regardless of position, and a minority (4%) had reflux only when upright. Among 13 of those with reflux only when lying flat, repeat pH monitoring after head-of-bed elevation showed resolution of reflux in 8 (62%) of the individuals.

This study provides new evidence the SERD is a frequent cause of respiratory symptoms and contrary to what was previously thought, most frequently occurs when lying down. It also shows that, an inches of head-of-bed elevation is effective in reduc ng supine SERD. If future studies confirm that the intervention also improves symptoms, it will be very good news for patients with a disease that is d fficult to treat with medication.

There are many manifestations of reflux outside the well-recognized symptoms of indigestion and regurgitation. The latest reports symptoms. Hoarse and scratchy throat and a chronic cough are two of the most common silent reflux symptoms, but the cough, hoarseness, voice change, asthma, sinusitis, sore throat, and dental erosion also, has been rather been proven or thought to be associated with gastroesophageal reflux. In fact, many of the people referred to me for evaluation of reflux do not have any other symptoms of reflux or notice an unusual cough or hoarseness. Instead, they are simply developing the aforementioned symptoms. Although an esophageal pH probe study remains the gold standard for diagnosing reflux, many of these additional factors

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States) When it's finished transmitting, point your web browser to Fax Tay — it's a fax web site that displays whatever is faxed to that number Within a minute your fax should appear on the site Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

Hail Mary

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen." (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

Q: What should I know about an FHA refinance?

A. FHA refinance loans are available for rate and term refinancing or cash-out refinancing. In addition, you may refinance a conventional loan to a FHA loan. For qualifying homeowners, FHA loans generally have several advantages including:

- Equity requirement is 2.25% (rate and term refinances only)
- May qualify for a loan two years after the date of discharge of a bankruptcy (Chapter 7)*
- May qualify for a loan three years after the date of a foreclosure*

*Actual time frame may be based upon personal circumstances and reestablishment of credit

Q: What eligibility requirements are there?

A. To be eligible for an FHA refinance with Discover Home Loans:

- Loan must be secured by a one- or two-unit property occupied as your primary residence.
- Your monthly housing costs (mortgage principal and interest, property taxes and insurance) should generally not exceed 31% of your gross monthly income.
- Your monthly housing cash plus all additional monthly debt should generally not exceed 43% of your gross monthly income.
- Your loan amount must not exceed your county limits as determined by the FHA. Contact one of our Dedicated Mortgage Bankers to determine what county loan limits are applicable to your specific situation.
- You do not need to be a U.S. citizen, though additional requirements apply to non-citizens.
- If applicable, you have been discharged from a Chapter 7 bankruptcy for two years or more or if you are in a Chapter 13 bankruptcy you have made all court-approved payments on time and re-agreed for at least one year. Additional requirements apply. Contact one of our Dedicated Mortgage Bankers about your specific situation.

Q: When is refinancing a good idea?

A. If you can reduce your current interest rate, you'll cut your monthly payments and may reduce the amount of interest you pay over the life of your loan depend no on the term of your new loan. Moving from a 30-year term to a shorter term mortgage can help you pay off your loan sooner while switching from an adjustable-rate to a fixed-rate mortgage will stabil ze your payments. Or, if you need money to pay down high interest bills or make major purchases, a cash out refinance can help you do that.

Please call one of our Dedicated Mortgage Bankers at 1-800-270-3891 with questions or for more information

DISCLOSURES, TERMS and CONDITIONS

Your receipt of this mailing does not mean that you have been pre-qualified or pre-approved for any particular amount that we offer. This is not a commitment to lend, you must submit additional information for review. Credit and collateral criteria to approval. The refinance offer is not valid on condotels, manufactured homes, or mobile homes. Other restrictions and limitations apply. For more information call our toll-free number.

Product/Rate assumptions: FHA 15 Year Fixed. Rate available as of 07/29/2016. The advertised rate is a FHA 15-year fixed rate full amortizing loan. The interest rate is 2.75%. The stated annual percentage rate (APR) is 2.75% discount points. 2% origination fee and $4130 in additional prepaid finance charges are all closing (which includes 75% ($3,500) in up front mortgage insurance premium). For a $200,000 loan, there is a 2.08% Annual Percentage Rate (APR) with 60 fixed monthly principal and interest payments of $ 1,307.24. The first mortgage insurance premium (MIP) is 1.75% of loan amount ($3,500) and is financed into the loan amount. Your total monthly mortgage insurance payments, interest and escrow payments is $1,307.24. Your total monthly principal and interest payment shown above will include the FHA required monthly mortgage insurance payments. Interest rate quoted assumes a FICO credit score of 720 with a maximum loan-to-value ratio of 80% on a primary residence. Income is the basis of FHA. The actual interest rate, APR and payment may vary based on the specific terms of the loan selected, verification of information, your credit history, the location and type of property and other factors. Not available in all states. Rates are subject to change daily without notice. Payment and rate include amounts for taxes and insurance premiums. Your actual payment obligation will be greater.

Terms subject to change. All loans are subject to credit and property approval. Rates, programs, terms, and conditions are subject to change without notice. Not all programs are available in all states or for all loan amounts.

Benefits and Risks of Refinancing. Applicable benefits and risks vary based on the terms of your new loan, details of requirements, etc.

Before choosing to refinance, borrowers subject to a pre-payment penalty on their existing loan should carefully consider the cost of paying the negotiated penalty associated with terminating that pre-payment penalty period.

Refinancing or taking out your home's equity may increase the total number of monthly payments and/or the total amount owed when compared to your current situation.

You may receive interest payment savings terms you make monthly payments towards a new, lower interest rate loan in an amount equal to or greater than what you currently pay on your existing mortgage loan.

The relative benefits of a loan for debt consolidation depend on your borrower circumstances and your actual debt payments. You may realize interest payment savings when you make monthly payments towards the new lower interest rate loan in an amount equal to or greater than what you previously paid towards the higher rate mortgage loans consolidated. Keep in mind, though, while your monthly payments will be lower, in the long term you will be paying more in interest because the debt is extended over a longer period of time.

Voice over the Cloud, Reliable, Scalable, Cost Effective

Once you experience Voice over the Cloud or Cloud Telephony, you will wonder how you ever lived with traditional phone systems. Voice over the Cloud provides advanced enterprise-level features and reliability customary to traditional PBX systems without the high cost and expensive maintenance they carry. In addition, Voice over the Cloud offers the ability to easily integrate diverse physical locations, gracefully scale with organizational growth, and provide customized solutions to fit complex needs. **Voice over the Cloud provides greater reliability and enhanced productivity at far lower cost than traditional PBX solutions.**

onCloud Knows Voice over the Cloud

Since its inception, onCloud has been a pioneer in VoIP and Voice over the Cloud. From managing our own phones, to supplying the phones, service and maintenance of our clients, our voice has been heard over the Cloud for 15 years. We can reduce your cost, reduce your management and down time, and provide scalable solutions that allow you to focus on your core business. We can effectively do it for you, because it is our core business.

myVoice℠

High-quality voice clarity, maximum up-time, full featured solutions, managed systems and the latest devices

myVoice℠ by onCloud provides you with a wide range of voice over Cloud options, the latest full featured VoIP phones, unlimited calling in the US, voicemail to e-mail, conference rooms, auto-attendant, call queueing, music or custom on hold recordings, computer integrated GUI interface, e-fax and more. Take your phone with you and integrate it to your cell phone. Keep your existing phone numbers, and easily add additional numbers, as well as toll free, from anywhere in the US and Canada and have them ring wherever you are. We manage everything, all future changes are included. There is never a programming charge. Are you a do 't yourself' kind of person? A self-service programming portal is available, as well!

We provide all the phones, hardware, setup and installation. Optionally, customers can provide any SIP-compatible phone, as well. Depending on model, functionality and setup will vary.

We the People of the United States

We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

Article I

SECTION 1

All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

SECTION 2

The House of Representatives shall be composed of Members chosen every second Year by the People of the several States, and the Electors in each State shall have the Qualifications requisite for Electors of the most numerous Branch of the State Legislature.

No Person shall be a Representative who shall not have attained to the Age of twenty five Years, and been seven Years a Citizen of the United States, and who shall not, when elected, be an Inhabitant of that State in which he shall be chosen.

[Representatives and direct Taxes shall be apportioned among the several States which may be included within this Union, according to their respective Numbers, which shall be determined by adding to the whole Number of free Persons, including those bound to Service for a Term of Years, and excluding Indians not taxed, three fifths of all other Persons.]* The actual Enumeration shall be made within three Years after the first Meeting of the Congress of the United States, and within every subsequent Term of ten Years, in such Manner as they shall by Law direct. The Number of Representatives shall not exceed one for every thirty Thousand, but each State shall have at Least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to chuse three, Massachusetts, eight, Rhode-Island and Providence Plantations one, Connecticut five, New-York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three.

When vacancies happen in the Representation from any State, the Executive Authority thereof shall issue Writs of Election to fill such Vacancies.

The House of Representatives shall chuse their Speaker and other Officers; and shall have the sole Power of Impeachment.

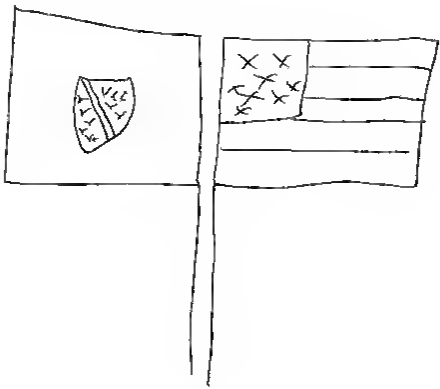

SECTION 3

The Senate of the United States shall be composed of two Senators from each State, [chosen by the Legislature thereof,]* for six Years; and each Senator shall have one Vote.

Immediately after they shall be assembled in Consequence of the first Election, they shall be divided as equally as may be into three Classes. The Seats of the Senators of the first Class shall be vacated at the Expiration of the second Year of the second Class at the Expiration of the fourth Year, and of the third Class at the Expiration of the sixth Year, so that one third may be chosen every second Year; [and if Vacancies happen by Resignation, or otherwise, during the Recess of the Legislature of any State, the Executive thereof may make temporary Appointments until the next Meeting of the Legislature, which shall then fill such Vacancies.]*

Week 1: July 26th, MULTIPLY

Readings 2 Kings 4: 42—44
Ephesians 4: 1—6
John 6: 1—15

Message God alone satisfies our desires. We should offer our gifts to God.

Family Discussion.

When have you seen God satisfy your desires/answer your prayers?

What gifts/talents has God given you?

How can you use them to serve Him and His Church?

Challenge: Spend 5 minutes every day this week in prayer, thinking about your gifts/talents and how God might be able to use them for His glory. Then put them into action and serve.

A Look Ahead at next week, August 2nd

Week 2 of Source & Summit: Bread of Life

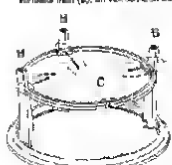

Be prepared – read the readings ahead of time and pray them as a family.

Exodus 16: 2—4, 12—15

Ephesians 4: 17, 20—24

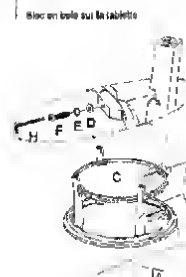

John 6: 24—35

2 Attacher la tablette (C) aux 3 pieds assemblés en insérant la tablette dans les rainures dans les pieds. Aligner le trou en bois déjà attaché sur la tablette avec le pied. Why Am I Receiving This Statement of Account?

This statement provides you with the most current information about your income tax account. If you owe money to the Canada Revenue Agency (CRA), you will find a remittance voucher at the bottom of this statement.

If you pay your taxes by instalments, those payments will not be reviewed on this statement. Instead, you will receive a summary of your instalment payments in February and August of each year.

How Is Compound Interest Calculated?

We calculate compound interest each day by first multiplying the unpaid balance by the applicable interest rate and then dividing the result by 365 (or 366 in a leap year). We add this interest to the unpaid balance to get the unpaid balance for the following day. We calculate each interest in the same way for 2003 and tax years that follow, which means simple compounding from the latest of the following dates:

- 30 days after the balance was due,
- 30 days after the date the return was filed, and
- the day you overpaid your taxes.

The interest rates can change every three months. If we charged or paid interest on your account, you will find the current rates of interest on the front of this statement.

What Do I Do If I Move or Change My Name?

If you move or change your name, let us know by calling the telephone number shown on the front of this statement, or by writing us a letter with your new name or address and your social insurance number (SIN). Send the letter to the address shown on the front as soon as possible. If you change your first name and your surname, please send a copy of the official change of name document along with your written request. You can also tell us your new address on our **www.cra.gc.ca/newaddress** Web page.

Teletypewriter Enquiry Service

A teletypewriter (TTY) is a machine that allows the user to communicate by means of a typed message over the telephone network. If you use a TTY, an agent at our bilingual enquiry service (1-800 665-0354) can help you. Agents are available Monday to Friday (except holidays) from 8:15 a.m. to 5:00 p.m. (local time). From mid-January to April 30, the hours are extended to 10:00 p.m. weekdays, and from 9:00 a.m. to 1:00 p.m. on weekends.

5 Shots of Whiskey

A man stumbles up to the bar looking very haggard, and says, "Give me five shots of whiskey and right now!"

The bartender lines up five shot glasses on the bar, and fills them with whiskey. As he turns around from putting the bottle up he notices that the five shot classes are empty. "God almighty, that was fast," the bartender says.

"Yeah, well you would drink fast too if you had what I have," says the customer.

The bartender takes a step back and says, "what have you got?"

They guy pulls his hand out of his pocket and says, "Seventy-five cents."

In the electoral campaign, President Bush named as the most important person in his life Jesus. Now he has a unique chance to prove that he meant it seriously for him, as for all Americans today. "Love thy neighbor" means "Love the Muslims!" OR IT MEANS NOTHING AT ALL.

results of this study should be interpreted in the context of all clinical and laboratory findings. As therapeutic options should be taken based solely upon these results. A "Not Detected" result may indicate the presence of an EGFR mutation below the detection limit of this assay. KRAS, MET and ALK mutations also affect the effective treatment of patients with NSCLC and should be considered by treating physicians. KRAS mutations are associated with increased resistance to TKIs affecting the downstream pathway. MET mutations are associated with increased resistance to TKIs by providing an alternate from T790M resistance. ALK mutations are indicative of an increased sensitivity to ALK inhibitors.

Appointment Confirmation

Thank you for participating in CPS Energy Residential Refrigerator and Freezer Recycling Program. You are scheduled for pickup of your appliance on **03/28/2014.** Unless there are technical reasons, for example: failure to disconnect the waterline, ARCA employees will complete the service requested. We will confirm this appointment by phone one business day prior to your scheduled pickup date. We will also call you morning of the appointment with a two hour window of pick up time. If we are unable to contact you at that time, your appointment will be canceled however, we will call you to set up another appointment. **We require that an adult, age 18 or older, be present at the appointment to sign the release form. Remember the refrigerator(s) *and/or* freezer(s) need to be plugged in and cooling 24 hours prior to pick up as we need to verify that the unit is cooling and in working condition. We also require that the refrigerator is no smaller than 10 cubic feet and no larger than 30 cubic feet and manufactured prior to 2001.** Your incentive will arrive 4 weeks after the pick up. You will receive **$65** bill credit from CPS Energy for each refrigerator and/or freezer.

Please assist us in keeping appointments on schedule by following these guidelines.

- Please remove all food, defrost and dry, drain the drip pan and disconnect all water lines from unit prior to pickup.
- Clear a pathway to the appliance(s) for safe removal and restrain any pets.
- Once again remember to have the appliance(s) plugged in and operating, as we do need to see that it is cooling.

ARCA, Inc. has been contracted by CPS Energy as an independent contractor to perform the services offered.

Annual Disclosure

Scottrade, Inc. ("Scottrade") is supplying you with important information about the services that we provide. More information about the terms and conditions surrounding your account can be found in the Scottrade® Brokerage Account Agreement available on our website. It can also be obtained through your local Scottrade® team.

Net Capital

The net capital of Scottrade as of March 31, 2017, was $268,273,408, which was $199,114,070 in excess of the minimum required. On April 30, 2017, Scottrade had net capital of $268,470,973, which was $209,854,438 in excess of the minimum required. A copy of Scottrade's full balance sheet is available free of charge by calling 800 619 7283.

FINRA Public Disclosure Program

As a member of FINRA, Scottrade is required to disclose the availability of BrokerCheck, an online tool that provides information about FINRA-registered firms and investment professionals. To access BrokerCheck or download an investor brochure, go to www.finra.org/brokercheck. You can also call the BrokerCheck Hotline at 800 289 9999.

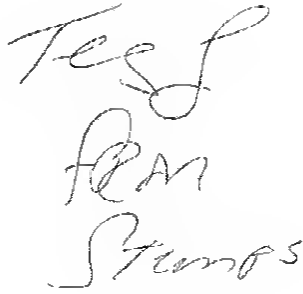

Order Routing and Payment for Order Flow

Consistent with the overriding principle of best execution, we generally route orders for National Market System (NMS) and Over-the-Counter (OTC) equity securities as well as options to trading centers, including exchanges, securities dealers/market makers, and alternative trading systems such as ECNs. Although Scottrade does not accept client instructions to route orders to a particular destination, Scottrade takes a number of factors into consideration in determining where to route customers' orders, including, quality of executions relative to the National Best Bid and Offer (NBBO) at any one market center, the speed of execution, the availability of efficient and reliable order handling capability, the liquidity offered by the trading center, the level of service provided, and the cost of executing orders. We may receive remuneration from a market center, but remuneration is only a factor when all other factors affecting best execution are equal. U.S. Securities and Exchange Commission (SEC) rules require all brokerage firms to make publicly available quarterly reports describing their order routing practices. These quarterly reports describe how and where customer orders are routed and are available on our website at www.scottrade.com/routing; you may also request a written copy by contacting your local Scottrade® team, Registered Investment Advisor or Guidence Solutions® Group representative.

In addition to the quarterly reports above, SEC rules also require brokerage firms, upon a client's request, to provide information regarding the identity of the market center to which any client order was routed in the six months prior to the request, whether the order was a directed or non-directed order, and the time of the transaction (if any) that resulted from the order. If you wish to receive the foregoing routing information for any order(s), please contact your local Scottrade® team, Registered Investment Advisor or Guidance Solutions® Group representative. In exchange for directing client orders to certain market centers for execution, we receive remuneration such as per-share arrangements, liquidity rebates or profit-sharing arrangements. The source and amount of any compensation received by us in connection with your transaction will be disclosed upon written request. You understand that any remuneration that we may receive for routing orders through various market centers is considered a reduction in our costs and will not accrue to your account.

Quick Jokes

Two Aerials meet on a roof - fell in love - got married. The ceremony was rubbish but the Reception was Brilliant

Man goes to the doctor with a strawberry growing out of his head
Doctor says "I'll give you some cream to put on it.

"A man says to the Doc, I can't stop singing the Green Green Grass of Home." "That sounds like Tom Jones syndrome
Is it common?" "It's Not Unusual"

A guy walks into the psychiatrist wearing only cling film for shorts
The shrink says, "Well I can clearly see you're a nut."

"So I rang up my local swimming baths. I said "Is that the local swimming baths?" He said "It depends where you're calling from."

Two cannibals eating a clown. One says to the other "Does this taste funny to you?"

Police arrested two lads yesterday, one was drinking battery acid, the other was eating fireworks.
They charged one and let the other one off.

I went to buy some camouflage curtains the other day but I couldn't find any

How many men does it take to open a beer? None. It should be opened by the time she brings it.

Why is a Laundromat a really bad place to pick up a woman? Because a woman who can't even afford a washing machine will probably never be able to support you

Why do women have smaller feet than men? It's one of those "evolutionary things" that allows them to stand closer to the kitchen sink.

How do you know when a woman is about to say something smart?
When she starts her sentence with "A man once told me..."

How do you fit a woman's watch? You don't. There is a clock on the oven

What's worse than a Chernobyl Pig? A woman that won't do what she's told

I married Miss Right. I just didn't know her first name was Always.

I haven't spoken to my wife for 18 months. I don't like to interrupt her

What do you call a woman who has lost 95% of her intelligence? Divorced

Scientists have discovered a food that diminishes a woman's sex drive by 90%. It's called a Wedding Cake.

Son: "Is it true that in some parts of Africa a man doesn't know his wife until he marries her." Dad: "That happens in every country, son."

Women will never be equal to men until they can walk down the street with a bald head and a beer gut and still think they are beautiful.

Two of Wilson Electronics Top Selling Amplifiers Kits 801213 and 811214

What do the Dual Band Mobile Wireless and SignalBoost Amplifier Kits have in common?

- 3 Watts of Power
- Works with all cell phones and data cards
- Significantly improves voice and data signal quality
- Receives and transmits signal better than your cell phone alone
- Improves data communication rates needed for 3G technologies
- FCC and IC Type accepted

Which one is the best choice for you?

Dual Band Mobile Wireless HD 801213

This is a powerful multi-user amplifier which requires no connection to the cell phone or laptop.

SignalBoost 811214

This high power cost effective amplifier is designed as a single user option. Connection to the phone is required using a small Velcro mounted patch or by placing the phone into the included cradle.

Product Highlight **Same great products with new designs**

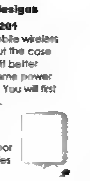

New and Improved case for Dual Band Wireless Amplifier—801201

We listened to our customers—the dual band mobile wireless has a new look—the performance is the same but the case has been re-designed to have a lower profile to fit better under car seats and dashboards. Includes the same power supply and features the same Plug-and Play kits. You will first notice the change in the 801212 kits which will start shipping this month.

New Outdoor Panel Antenna—301157

We have also re-designed the case for our performance proven panel antenna (301135) so it is **weatherproof for outdoor mounting**. The outdoor panel antenna can be used on 700MHz—2500MHz frequencies. Includes pole mounting hardware.

You know, Mary, most things depreciate, don't they? Cars, homes, almost everything we invest in depreciates. Everything. Even money itself, isn't that right? So today all of us have to make the same decision. Do we want to retain all of our spendable income, watching it depreciate or do we want to invest some of it in things we really want, things that will provide enjoyment for our families and ourselves. By the way, Mary, I wouldn't want you to make the decision if I weren't so sure from what you've told me that you would receive benefit for years to come.

The Two-Party Indecision Close

John, Mary, when two people are required to make one decision, it's often impossible to find the solution that satisfies both of them. So, life becomes a matter of compromise. Now the measurement of each decision is through the use of this question: 'Does the decision satisfy most of the wants of each of the parties?'

The Best Things in Life Close

Keep your eyes and ears open for things they like that they already own.
I understand. Isn't it true that the only time you have ever really benefited from anything in your life has been when you said 'yes' instead of "no?" You said 'yes" to your marriage (optional, and I can see how happy you are). You said 'yes" to your job, your home, your car. Please realize all the things you enjoy you said "yes" to. And you know, when you say "yes" to me, it's not really me you're saying "yes" to, but all the benefits that we have to offer. Based on that truth, it just makes sense to say "yes," doesn't it?

The Similar Situation Close

This is relating an example of someone else who was in the same or similar situation as your potential future client. The other person was hesitant, but made the decision to go ahead and today, is so happy that they did. After every sale, invest five minutes de-briefing yourself as to what worked, what didn't work and what you said that was new and creative.

The "I Want to Think it Over" Close

This close works wonderfully with those potential clients who stall making a decision. They may want to "think it over," "shop around," "sleep on it," or "we'll get back to you." These types of stalls usually mean they think the product or service is too expensive or could be purchased elsewhere for less. We can handle either of those challenges, but first have to get them to admit what's holding them back. If you've done everything previously taught, it should only be a stall. The reason this stall eliminates a closed sale is that phrase is almost like a ghost.

That's fine, Mary. Obviously, you wouldn't take your time thinking this over unless you were seriously interested, would you? I mean, I'm sure you're not telling me that to get rid of me. So, may I assume you will give it very careful consideration? Just to clarify my thinking, what phase of this opportunity is it that you want to think over (don't pause), is it the quality of service I'll render? Is it something I've forgotten to cover? Seriously, please level with me, could it be the money?

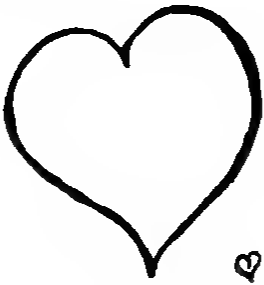

Most times they'll say "yes." Then, you need to determine just how much money they're objecting to. It's rarely the whole amount. Move on to the "it costs too much" close to determine just how much money they're objecting to.

The "It Costs Too Much" Close

Today most things do. Can you tell me about how much too much you feel it is?
Your goal is to take the stall and determine the amount of money that is the issue.

INSTRUCTIONS FOR COMPLETING NCVEC FORM 605 APPLICATION

AMATEUR RADIO LICENSES AND REQUIREMENTS

In the US there are three Amateur Radio license levels, or license classes which are Technician, General and Amateur Extra. The Federal Communications Commission (FCC) grants these licenses. The exams cover regulations governing practices, and electronics theory. They are based on cumulative knowledge and build off one another. FCC requires the lower level exams to be passed for the higher level licenses to be issued.

LEVEL 1 **Technician Class**
EXAM: 35 question Technician Written Exam (Element 2)

LEVEL 2 **General Class** (upgrade from Technician)
EXAM: 35 question General Written Exam (Element 3)

LEVEL 3 **Amateur Extra Class** (upgrade from General)
EXAM: 50 question Extra Written Exam (Element 4)

The written examinations are constructed from question lis[illegible] that have been made public. There is no examination from the written exam requirements to persons with difficulty in reading writing, or because of a handicap or disability. There are exam recommendations that can be afforded examinees. To view the question pools and other useful information or to contact an FCC appointed VEC organization visit **www.ncvec.org**

FCC CONTACT INFORMATION

Should you have any questions please contact the FCC at 877-480-3201 (weekdays) or visit the FCC website at **https://www.fcc.gov/wireless/bureau-divisions/mobility-division/amateur-radio-service**

SOCIAL SECURITY NUMBER

Under the Debt Collection Act of 1996 your Taxpayer ID Number (TIN) which is your Social Security Number is required on this application or your FCC assigned Federal Registration Number (FRN). An FRN is assigned by the FCC registration system as soon as you SSN is registered. Visit FCC CORES FRN Registration at **https://apps.fcc.gov/cores/WebPublicHome.do**

NCVEC FORM 605

The NCVEC Form 605 is for VE / VEC use only. Do not send or provide this form to the FCC. This form is used at a VE exam session to apply for a new or upgrade Amateur Radio Operator/Primary Station license. It may also be used to renew or update your licenses (change your mailing address, email address, name, etc.). The form may not be used to apply for a new specific "vanity" station call sign.

THE FCC APPLICATION FORM 605

The FCC Form 605 may not be submitted to a VE exam session team or a VEC since it does not request the information required by the administering VEs. The FCC Form 605 may be used to renew or modify your license. New vanity license requests and sequential call sign changes require an FCC schedule D form in addition to the FCC 605 Form. Send the FCC 605 form to: FCC 1270 Fairfield Rd. Gettysburg PA 17325-7245. You may file license renewals or changes or request a vanity call sign online directly with the FCC at **http://wireless.fcc.gov/uls/**

FCC BASIC QUALIFICATION QUESTION

The item enables the FCC to determine whether an Applicant is eligible under §§ 310(d) and 308(b) of the Communications Act of 1934, as amended, to hold or have ownership interest in a station license. Applicants are required to answer the question only if 1) they are filing NCVEC or FCC Form 605 for one of the following purposes indicated **New Amendment, Modification (Upgrade or Call sign change), or Renewal/Modification** and 2) the answer has changed from the answer previously provided. Applicants using NCVEC or FCC Form 605 for any other purpose are not required to answer the question.

FCC BASIC QUALIFICATION QUESTION INSTRUCTIONS AND PROCEDURES WHEN ANSWERING "YES"

If the answer to the basic qualification question (felony question) is **YES** submit as an exhibit a statement explaining the circumstances and a statement giving the reasons why the Applicant believes that grant of the application would be in the public interest notwithstanding the actual or alleged misconduct. If the Applicant responds "YES" to this question and has previously provided a statement and explanation regarding the circumstances as an attachment to a prior application filed in ULS and the facts and circumstances are unchanged, the Applicant may refer to the previous application by identifying the application file number and indicating the disposition of the prior application. Find your FCC Application file number **http://wireless2.fcc.gov/UlsApp/ApplicationSearch/search.jsp Advanced.jsp**

Applicants can send the explanation and the application file number via e-mail to **attach605@fcc.gov** or **via postal mail at: FCC 1270 Fairfield Rd. Gettysburg PA 17325 7245**. The applicant is required to provide an explanation **within 14 days of the application date being submitted to FCC**. Failure to do so may result in the application dismissal without action. The applicant must provide sufficient information for the FCC to determine whether there exists any material and substantial question of fact regarding whether the applicant has the character qualifications to be a Commission licensee. There is no set checklist of items, but useful information includes:

- a detailed description of the conduct that resulted in the conviction or guilty plea, including time and place
- the date of the conviction or guilty plea
- the punishment that was imposed, and whether the sentence has been completed or the applicant is still under any restriction or condition resulting from the conviction or guilty plea
- any efforts taken to remedy the wrongs committed and ensure that the applicant will not engage in such conduct in the future.

If the applicant does not request confidential treatment, the explanation will be publicly viewable in ULS. If the applicant requests that the explanation be confidential it will not be visible to the public. However in order to seek confidential treatment, the applicant must include a separate request that the material not be made available for public inspection. The request must contain a statement of the reasons for the request, and identify the portion(s) of the response for which confidential treatment is requested. It is not sufficient to simply mark a document as "Confidential". All attachments, confidential or non-confidential should be accompanied by an application file number to ensure that the explanation is attached to the proper filing.

Purpose of this form

Complete this form to notify us of a change in your mailing address or your home address or of a change in your telephone number if you

You cannot use this form

- to notify us of a change of name
- to notify us of a change in your date of birth
- if you have not filed an income tax and benefit return with the Canada Revenue Agency

Why is it important?

When you tell us your new address in advance

- you can avoid a disruption in receiving your benefit payments, such as GST/HST credit payments (including certain related provincial payments), Canada child benefit payments (including certain related provincial payments), universal child care benefit payments, and working income tax benefit advance payments

More information

- If you do not have a social insurance number but you already get an individual tax number for a temporary resident number, continue to use this number when you have been issued
- the address you're moving to or mailing address if it is different from what it was when you last dealt with us
- Send your completed form to your tax services office listed below.

Thank You

On behalf of everyone at Morgan Stanley Smith Barney, thank you for your continued confidence and for giving us the opportunity to serve your financial needs.

Because we know how hard you have worked to build your assets, we're able to focus all of the firm's investment experience, capabilities and resources on helping you manage these assets wisely—now, and as your circumstances change over time.

As a valued Morgan Stanley Smith Barney client, you have access to all of the products and services we offer, including lending, education savings, retirement and estate planning, and more. Our goal is to help you manage every aspect of your financial life while you plan for important events and prepare to meet any uncertainties.

This book confirms the details of your new Morgan Stanley Smith Barney accounts, including the features and services you have selected. Beyond that, it's a record of your financial choices, and we will refer to it as we continue to build on the foundation we have established.

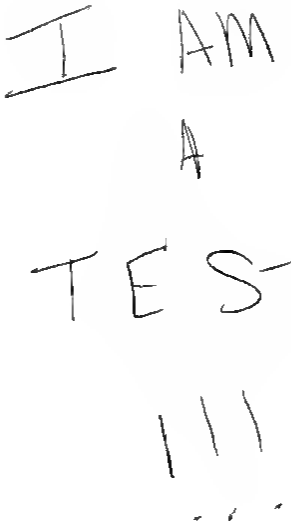

Thank you again for giving us the opportunity to serve you.

Sincerely,

PAUL J. KURISKY

Test 2

The **San Francisco 49ers** are a professional American football team based in San Francisco, California, playing in the West Division of the National Football Conference (NFC) in the National Football League (NFL). The team was founded in 1946 as a charter member of the All-America Football Conference (AAFC) and joined the NFL in 1950 after the two leagues merged. The 49ers are well known for having one of the greatest dynasties in NFL and sports history during the 1980s and early 1990s, winning five Super Bowl championships, including four in the 1980s. Those championship teams were led by notable hall of famers such as Joe Montana, Jerry Rice, Ronnie Lott, Steve Young, and coach Bill Walsh. They are currently second only to the Pittsburgh Steelers in total Super Bowl wins (6), tied with the Dallas Cowboys at 5. The 49ers won 10 or more games for 17 straight seasons.[3] Particularly notable seasons are the 1984 and 1989 teams. The 49ers remain the only team in NFL history to appear in more than one Super Bowl without ever losing.

The name "49ers" comes from the name given to the gold prospectors who arrived in Northern California around 1849 during the California Gold Rush. The name was suggested to reflect the voyagers who had rushed the West for gold. It is the only name the team has ever had and San Francisco is the only city in which it has resided.[4]

The team is legally and corporately registered as the San Francisco Forty Niners, Ltd.,[5] and is the oldest major professional sports team in California. Major League Baseball would not come for a few more years when the New York Giants and Brooklyn Dodgers would move to San Francisco and Los Angeles, respectively. The Philadelphia Warriors and Minneapolis Lakers would move to California in the states, and the Oakland Seals and Los Angeles Kings would become the first NHL teams in the state in 1967. The Cleveland Rams arrived in Los Angeles in 1946. The 49ers and Los Angeles Rams were cross-state rivals until 1994, when the present St. Louis Rams left Southern California.

Green Cone User Guide

Seattle Public Utilities

Welcome to the Green Cone System, a user-friendly way to compost food scraps

Why use Green Cones?

Because they are the simplest way to keep food scraps out of the garbage, conserve resources and improve your garden soil.

Why use Two Green Cones?

We recommend two Green Cones for continuous, year-round food scrap composting. After the first Green Cone is filled start using the second Cone. By the time the second Cone is full the first Cone is ready to be harvested. With two Green Cones you can be harvesting the food scrap compost at the ideal stage, and deal less with having to stop composting until the Cone is emptied and with odors of uncomposted food scraps.

Are there any reasons not to use Green Cones?

Yes! If you have standing water in your yard in winter or water fills the hole after you dig in your garden, or if you have a very [illegible] soil, Green Cones will not function well. If rats are a big problem in your neighborhood, you will have to take added precautions to keep them away from your Green Cone.

What's the best place to put Green Cones?

Photo 1

- Convenience is important. Place your Green Cone System where you won't mind walking to it – near a door to the kitchen is a great location.
- Don't put your Cones near windows or doors that are open in summer – fruit flies might be a nuisance.
- A central area of the garden is good, away from fences woodpiles and bushes if possible.

How to install a Green Cone System

Dig A Hole

Photo 1 Dig a hole 18 inches deep and the diameter of the black basket. Make sure the hole is deep enough for the basket to be completely underground.

If you have a heavy clay soil, dig down an additional eight inches. Fill this area with drainage material like sandy gravel, rocks from your garden, or broken terracotta pots.

Comments

Things the Teacher Did Well: Jon brought a lot of energy to the lesson and focused on having fun while teaching the student. He corrected the student as needed, and provided rewards

Areas for Improvement: I would recommend the following to Jon:

Demonstrate the activities and then invite the student to try.

WISUPDecode 3 1 0 (20-Aug-2002)

WISUPDecode is a graphical Java decoder for the SS7 ISUP protocol under GPL license
It dynamically loads a decoder for processing a message and so can support several ISUP variants Currently 3 decoders has been written and are not distributed with WISUPDecode:
- ETSI 300 356 1
- ANSI T1 113 1995
- BELLCORE GR CORE-317 (1994 issue) and GR-CORE-394 (1994 issue)

Currently there is no help for WISUPDecode so you will find here enough (I hope) for using it

Buckwheat Zydeco

From Wikipedia, the free encyclopedia

Buckwheat Zydeco is the stage name of **Stanley Dural, Jr.** (born November 14, 1947), an American accordionist and zydeco musician. He is one of the few zydeco artists to achieve mainstream success. His music group is formally billed as **Buckwheat Zydeco and His Ten Piece Band**, but often they perform as merely *Buckwheat Zydeco*.

The *New York Times* says, "Stanley 'Buckwheat' Dural leads one of the best bands in America. A down-home and high-powered celebration, meaty and muscular with a fine-tuned sense of dynamics, propulsive rhythms, incendiary performances."[1] *USA Today* calls him "a zydeco trailblazer."[2]

Buckwheat Zydeco has performed with a large number of famous musicians from Eric Clapton (with whom Buckwheat also recorded) and U2 to The Boston Pops. The band performed at the closing ceremonies of the 1996 Summer Olympics to a worldwide audience of three billion people. Buckwheat performed for President Clinton twice, celebrating both of his inaugurations. The band has appeared on the *Late Show with David Letterman*, *CNN*, *The Today Show*, *MTV*, *NBC News*, *CBS Morning News*, National Public Radio's *Weekend Edition*

I'm sure she had no idea that she was about to go across the street and purchase me new underwear, new socks, new pants, a new shirt, and (by that time due to considerable leakage around the elastic ankles thingies) new sneakers. And she then started to laugh herself since I was still laughing. She began to ask for an explanation as to what had happened when I promised her that I would tell her later, but that I just needed to handle damage control for the time being. She left.

The manager then came back in with a half-dozen wet towels and a few dry ones. I asked him to also bring a mop and bucket upon which he assured me that they would clean up anything that needed to be cleaned. Without giving him specific details, I explained that what was going on in that stall that night was far in excess of what I would expect anyone to deal with - what with most of the folks working at Ryan's making minimum wage of just slightly above. At that moment, I think it dawned on him exactly the gravity of the situation. Then that manager went so far above the call of duty that I will be eternally grateful for his actions. He hooked up a hose.

Fortunately, commercial bathrooms are constructed with tile walls and tile floors and have a drain in the middle of the room. In order to make clean up easy. Fortunately, I was in a commercial bathroom. He hooked up the hose to the spigot located under the sink as I began cleaning myself up with the wet towels. Just as I was finishing, CatScratch got back with the new clothes and passed them into the stall...whereupon I stuffed the previously worn clothing into the plastic bag that came from the store, handing the bag to my new girlfriend. I finished cleaning myself off and carefully put on my new clothes, still stuck in the stall since I figured that it would be in bad taste to go out of the stall to get redressed in the event I happened to be standing there naked and some little bastard kid walked in. At that point, I had only made a mess, I had not yet committed a felony and intended to keep it that way.

When I finished getting dressed, I picked up the hose and cleaned up the entire stall, washing down the remains toward the drain in the center of the room. I put down the hose and walked out of the bathroom. I had intended to go to the manager and thank him for all he had done, but when I walked out, three of the management staff were there to greet me with a standing ovation. I started laughing so hard that I thought I was going to throw up again, but managed to

When I attempt to use my magicJack I get a numerical error code. What does it mean?

The magicJack device is programed to give an error code if it is unable to look for one reason or another most of these issues can be corrected by performing the following steps.

Error 1 / Error 2 / Error 3 / Error 4 / Error 23 / Error 3001 / Error 3002

The magicJack device is plugged into a computer only

1. Unplug the magicJack from the USB port on your computer
2. Restart your computer
3. Plug the magicJack back into the computer and re-open the magicJack Dial-Pad

The magicJack device is plugged into a modem/router.

1. Unplug the magicJack from the modem/router Ethernet cable telephone and electrical outlet and unplug your telephone from the electrical outlet (if cordless)
2. Unplug your modem/router from the electrical outlet for approximately 1 minute and then plug it back in.
3. Plug your modem/router back in and wait approximately 2-3 minutes before plugging anything else back in.
4. Plug your magicJack device back into the modem/router telephone and electrical outlet (electrical outlet last) and wait 1 minute before attempting to make a call

If these steps fail to resolve your issue please contact us by clicking the "Contact Us" link at the top right of this page.

Dick Cheney

From Wikipedia, the free encyclopedia

Richard Bruce "Dick" Cheney[1] (born January 30, 1941) served as the 46th Vice President of the United States (2001–2009) under George W. Bush.

Born in Lincoln, Nebraska, Cheney was primarily raised in Sumner, Nebraska, and Casper, Wyoming.[2] He began his political career as an intern for Congressman William A. Steiger, eventually working his way into the White House during the Nixon and Ford administrations, where he served the latter as White House Chief of Staff. In 1978, Cheney was elected to the U.S. House of Representatives from Wyoming; he was reelected five times, eventually becoming House Minority Whip. Cheney was selected to be the Secretary of Defense during the presidency of George H. W. Bush, holding the position for the majority of Bush's term. During this time, Cheney oversaw the 1991 Operation Desert Storm, among other actions.

Out of office during the Clinton presidency, Cheney was chairman and CEO of Halliburton Company from 1995 to 2000.

To Whom It May Concern:

Please accept the attached resume in reply to your job posting for an Instructional Designer. I am a senior technical trainer / senior information developer at Lucent Technologies in Holmdel. My responsibilities include training development / delivery and technical writing. In these positions, I support a...I have been involved with corporate training since 1985. Before that, I was a mathematics teacher in various schools throughout New York and New Jersey. As a writer, I prepare and create training guides and user manuals using Adobe Framemaker. Documents are delivered in both electronic (pdf) and online (web based) formats. I am in the process of getting a Master's degree in Education with a specialization in e-Learning.

I am very interested in this position as described. Please review my resume. If you have any questions, please contact me by telephone or email. Thank you.

Sincerely,

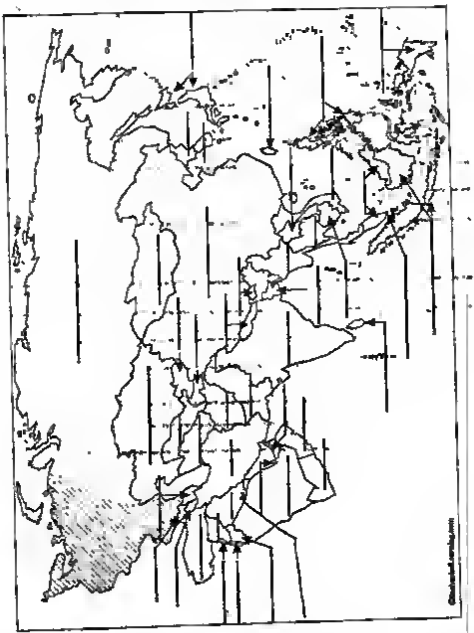

Q: Why are hawks such great football fans? **A: They're always watching the game on the field!**	**Q: What has more lives than a cat?** **A: A frog — it croaks every night!**
Q: Why are basketball players sloppy eaters? **A: Because they always dribble!**	**Q: How do you know when you're built upside down?** **A: When your feet smell and your nose runs!**
Q: Why does Santa have so many gardens? **A: So he can hoe hoe hoe!**	**Q: Why did the mouse dance on the peanut butter jar?** **A: Because it said twist to open!**
Q: What did the salad say to the refrigerator? **A: Close the door, I'm dressing!**	**Q: What did one eye say to the other?** **A: There is something between us that smells!**
Q: What do termites eat for breakfast? **A: Oak meal!**	**Q: What do you get when you cross a bell and a chicken?** **A: An alarm clock**
Q: What do you get when you cross Lassie and a rose? **A: A collie-flower!**	**Q: Which part of a hen has the most feathers?** **A: The nest de!**
Q: Why weren't apples allowed on Noah's ark? **A: Only pears were allowed!**	**Q: Why did the little skunk listen to the big skunk?** **A: Because it was older and wiser!**

THIS IS A STORY ABOUT FOUR PEOPLE NAMED

EVERYBODY, SOMEBODY, ANYBODY AND NOBODY

THERE WAS AN IMPORTANT JOB TO BE DONE
AND

EVERYBODY WAS SURE SOMEBODY WOULD DO IT.

ANYBODY COULD HAVE DONE IT,

BUT NOBODY DID IT.

SOMEBODY GOT ANGRY ABOUT THAT

BECAUSE IT WAS EVERYBODY'S JOB.

EVERYBODY THOUGHT ANYBODY COULD DO IT,

BUT NOBODY REALIZED EVERYBODY WOULDN'T DO IT.

IT ENDED UP THAT EVERYBODY BLAMED SOMEBODY

WHEN NOBODY DID

WHAT ANYBODY COULD HAVE DONE!

7. [illegible] and hold harmless Mail Service from and against any and all claims, demands and causes of action of any nature whatsoever relative to use of Mail Service facilities or services, and any expense incurred in a defense of same shall be reimbursed by applicant.

13. Certified, registered, insured, or C.O.D. mail or parcels will be accepted by Mail Service only in those cases in which applicant specifically authorizes same by filling out Item 6 of USPS Form 1583 and provides full advance payment of U.S.P.S. charges.

16. Should Mail Service commit, or fail to commit, any act which results in interruption of service and applicant thereby suffers a loss, Mail Service's liability shall be limited to not more than the rental fees paid by applicant for service not yet received. Mail Service shall not be liable for incidental or consequential damages.

17. Mail Service files are due and payable in advance and access thereof will be placed in applicant's lockbox. No other notice will be required. Failure to pay such fees when due may result in disruption or cancellation of services. Mail Service does not prorate fees and does not provide refunds in the event of cancellation by applicant.

18. Upon termination of services by Mail Service or failure to pay rent in advance by applicant, Mail Service shall not make applicant's mail available without payment.

19. Applicant shall use the address designation "PMB" or "#" to designate their address. NO OTHER DESIGNATION IS VALID. The U.S. Postal Service may refuse to deliver any piece of mail that does not include the "PMB" or "#" designation. Applicant is responsible for notifying correspondents of the below address.

20. Applicant understands that the United States Postal Service will not forward or return mail without payment, and will not accept a change of address.

21. A termination of service shall not relieve the addressee/applicant of the duty, until receipt of Mail Service notice, to pay any unpaid fees for the above applicant and [illegible] Service shall refuse any further mail and, in the case of mail already received, handle such mail in accordance with USPS DMM DO42.2.6 regulations.

Router: 192; Ooma; 172; Comcast; 76. Can I change Ooma?

Riley Jorgensen » Mon Apr 26, 2010 7:39 pm

I am set up as Router --> Ooma --> Cablemodem --> Comcast

So, my "real" problem is that I want to use port forwarding and open up a port 45631/TCP

Super

So I go to setup.ooma.com and I see that my configuration says that it's the following (I've put in the X's for security only):

MODEM Connected [76.117.X.X]

HOME Connected [172.27.X.X]

Turns out, I'm also using a Wireless-router-Firewall device NetGear-something-or-other and it's configured as 192.168.2.1 and all the computers on the network (all of them, including computers, Tivos and other devices) are all 192.168.2.X

Here's my question:

Q I want to do a port forward of 45631 to 192.168.2.10 on the OOMA device, and got (rightly) told that I cannot do this, since it doesn't know about the 192.168.2.X network..

Q Is there any reason why I should NOT change the OOMA to 192.168.2.3 as something similar?

Q THEN port forward? Will this work?

Q Is this the recommended way to --do- port forwarding (from OOMA (172.27.x.x) to my 192.168.2.X - or are I totally off in the weeds? (Note: I did the port forwarding ALREADY on the Netgear and my port still appears useful.)

Obviously, I need my phone system to keep working... so I figured I would just ask before I did this first.

Thanks in advance.

Re: Router: 192; Ooma; 172; Comcast; 76. Can I change Ooma?

Riley murphy » Tue Apr 27, 2010 3:24 am

You can not have the same subnet in two different devices (Ooma and router). It makes routing impossible.
There is no reason to mask your 172.27.35.1 IP address. It is a private address just like the 192.168.x.x range. Every Ooma box comes with the same address
Configure the Ooma box DHCP to issue exactly one IP address, 172.27.35.2. ie, make the start and end IP addresses 172.27.35.2. This guarantees that your router will always get the same address.
Put 172.27.35.2 in for Ooma's DMZ entry
Or leave the DMZ entry blank and forward port 45631 to 172.27.35.2.
Do not do both.

Standard Agreement

FUNDING AGREEMENT BETWEEN THE DEPARTMENT OF CALIFORNIA HIGHWAY PATROL AND SACRAMENTO TRANSPORTATION AUTHORITY

This Agreement is between the State of California acting by and through the Department of California Highway Patrol (hereinafter referred to as CHP) P.O. Box 942898 Sacramento, California 94298-0001 and the Sacramento Transportation Authority (hereinafter referred to as STA) at 431 "I" Street, Suite 106 Sacramento, CA 95814-2320

RECITALS

Whereas, this agreement provides for CHP supervisory assistance in connection with the Freeway Service Patrol (FSP) program in Sacramento and Yolo Counties Streets and Highways Code Section 2581, subdivision (c) defines "freeway service patrol" as a "program managed by the Department of the California Highway Patrol the [California Department of Transportation] and a regional or local entity which provides emergency roadside assistance on a freeway in an urban area," and

Whereas, Section 2401 of the California Vehicle Code (CVC) states that the Commissioner of the CHP shall make adequate provisions for patrol of the highways at all times of the day and night. This section is interpreted to mean that the Commissioner is given broad discretion in determining the means of providing adequate patrol, including the use of FSP vehicles, and

Whereas, the STA has, under Streets and Highways Code Section 2557 (d), the ability

RECIPE

Chocolate Chip Cookies

Adapted from Jacques Torres

Time: 45 minutes (for 1 6-cookie batch), plus at least 24 hours' chilling

2 cups minus 2 tablespoons

(8 1/2 ounces) cake flour

1 2/3 cups (8 1/2 ounces) bread flour

1 1/4 teaspoons baking soda

1 1/2 teaspoons baking powder

1 1/2 teaspoons coarse salt

2 1/2 sticks (1 1/4 cups) unsalted butter

1 1/4 cups (10 ounces) light brown sugar

1 cup plus 2 tablespoons (8 ounces) granulated sugar

2 large eggs

2 teaspoons natural vanilla extract

1 1/4 pounds bittersweet chocolate disks or fèves, at least 60 percent cacao content (see note)

Sea salt.

1. Sift flours, baking soda, baking powder and salt into a bowl. Set aside.

2. Using a mixer fitted with paddle attachment, cream butter and sugars together until very light, about 5 minutes. Add eggs, one at a time, mixing well after each addition. Stir in the vanilla. Reduce speed to low, add dry ingredients and mix until just combined, 5 to 10 seconds. Drop chocolate pieces in and incorporate them without breaking them. Press plastic wrap against dough and refrigerate for 24 to 36 hours. Dough may be used in batches, and can be refrigerated for up to 72 hours.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-510-545-0990 (a number in Northern California.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Gluten Free, Dairy Free, Egg Free Bread

- 1 1/2 cups warm water
- 2 teaspoons olive oil
- 1 cup millet flour
- 1/2 cup sorghum flour
- 1/2 cup cornstarch
- 1/2 cup potato starch
- 1/2 cup tapioca flour
- 3 tablespoons sugar
- 2 teaspoons xanthan gum
- 1 teaspoon salt
- 2 1/4 teaspoons of active dry yeast

1. In a bowl combine water and oil and pour into bread pan
2. In a separate bowl combine remaining ingredients.
3. Carefully pour flour mixture over the liquid. You want to sprinkle this over the liquid so that it is evenly distributed
4. Bake bread on gluten free setting, 1 1/2 lb loaf, medium crust

Prayer to St. Joseph over 1900 years old

O St Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord: so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St Joseph, I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph, Patron of departing souls, pray for us Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Imprimatur

Sending a fax using a shortcut number

Fax shortcuts are like quick speed dial numbers on a telephone or fax machine. A shortcut number (1 digit) can contain a single recipient or multiple recipients.

1. Load an original document face up, short edge first, in the ADF tray or face down on the scanner glass.

   Notes:

   - Do not load postcards, photos, small items, transparencies, photo paper, or thin media (such as magazine clippings) into the ADF tray. Place those items on the scanner glass.
   - The ADF indicator light comes on when the paper is loaded properly.

2. If you are loading a document into the ADF tray, then adjust the paper guides.
3. From the printer control panel, press #, and then enter the shortcut number using the keypad.
4. Touch Fax It.

Sending a fax using the address book

The address book feature helps you search for bookmarks and network directory servers.

Note: If the address book feature is not enabled, then contact your system support person.

1. Load an original document face up, short edge first into the ADF tray or face down on the scanner glass.

   Notes:

   - Do not load postcards, photos, small items, transparencies, photo paper, or thin media (such as magazine clippings) into the ADF tray. Place those items on the scanner glass.
   - The ADF indicator light comes on when the paper is loaded properly.

2. If you are loading a document into the ADF tray, then adjust the paper guides.
3. From the home screen, navigate to

   Fax ▸ type the name of the recipient ▸ ✔

   Note: You can only search for one recipient at a time.

4. Touch the name of the recipient, and then touch Fax It.

Understanding the fax options

Content

This option lets you specify the content type and source of the original document.

Select from the following content types:

- Graphics—The original document is mostly business-type graphics, such as pie charts, bar charts, and line drawings.
- Photo—The original document is mostly a photo or an image.
- Text—The content of the original document is mostly text or line art.
- Text/Photo—The original document is a mixture of text, graphics, and photos.

Super Value TOURS INC
A Subsidiary of Sunshine Tours

6-Day Japan Kanto Tour

Guest Itinerary

5/23 (Sun)

Tokyo-Narita

Meiji Shrine • Tokyo Imperial Palace • Asakusa Historical District • Odaiba sights: Toyota Technology Museum or Venus Fort • Ginza Fashion District • Hotel

From traditional to modern, see a palette of different sights in the bustling metropolis of Tokyo. Window shop in the upscale Ginza district or simply relax in a local cafe and observe the interactions of the elegant locals. (3 meals)

Please note, if you are not taking a morning flight the next day, it may be convenient to stay one more evening in Shinjuku instead of returning to Narita with the group. For guests with this option, your tour will end after dinner. Our guide will assist in purchasing subway tickets for your late/overnight return to the hotel (airport transfers will be included). If you prefer this option & have not yet made reservations, please contact your travel consultant before departure. Thank you!

Thrift Savings Plan
P.O. Box 385021
Birmingham, AL 35238

February 2012

Dear TSP Participant,

The TSP is turning 25!

Established by the Federal Employees' Retirement System Act of 1986, the TSP opened its doors to investors in April 1987. In those early years, Federal employees had to wait six months to a year to sign up for the TSP. There was only one investment fund, the G Fund, and contributions were strictly limited. Participants could adjust the amount of their contributions only during semiannual open seasons, and when we introduced the C and F Funds only FERS participants who had contributed their own money could make an interfund transfer—once each open season by way of a mailed form. There was no website and no automated ThriftLine. Looking back on it, the TSP was a "bare bones" operation.

We've come a long way since then. Today, the TSP is widely recognized as one of the finest, most elegantly simple, and popular retirement plans of its kind. With over 4.5 million civilian and uniformed services participants and assets of nearly $300 billion, it is certainly the largest defined contribution retirement plan in the world. Since 1987, we've introduced four new funds (C, F, S, and I Funds) and five Lifecycle (L) Funds. We have a new website and a toll-free ThriftLine to help you manage your account. There is now daily valuation, automatic enrollment, immediate contributions, Web-based interfund transfers and other transactions, beneficiary participant accounts, loans, hardship withdrawals, partial withdrawals, and many more features. And we provide all of this with an extraordinarily low expense ratio of 25¢ per $1,000 account balance in 2011.

In the past year, we have been focusing a great deal of our time and efforts to bring you a Roth TSP option. If you are an active (contributing) participant, the Roth feature will give you the opportunity to make after-tax contributions that will grow in your account tax-deferred. When you withdraw your Roth balance, you will pay no further taxes on your contributions and, provided you satisfy certain Internal Revenue Code requirements, no taxes at all on your earnings. Participants have been asking for a Roth option, and we are very pleased to be over the threshold of making this a reality. Enclosed in this mailing with your 2011 annual statement, we are providing a leaflet summarizing the features of the Roth option and its benefits. The enclosed TSP *Highlights* provides additional information to help you decide whether Roth contributions could be to your advantage. What better way to celebrate our 25th year than by introducing such an important feature?

When MTN's love went bad

I started with a text message that came in early one morning. It read, in part, that MTN had given me trial of a caller tune, but I didn't pay it much attention (it's spam and just out of luck. I had more important things to interest). It when I checked later it had disappeared, so I forget about it.

Two hours later a friend calls me, and after saying hello said she never knew I was a fan of a one Mpologama, a singer. He I wasn't, and who is he? It's she, my friend said, of all you have her song as a caller tune. I remembered the text that I had received that morning and tried to search for it, but it was not there.

That whole day everybody who called me said something about the caller tune, so I decided to call my own phone and see what the fuss was all about.

And it was there, the most God awful tune had ever heard for the record. I have nothing, against Mr Mpologama).

I'm not an MTN hater, far from it. I love MTN has been called all kinds of names, and there are Facebook pages and groups dedicated to just bashing the company but I'm not part of them.

I'm a loyal kind of guy, and when MTN launched data services in 1998, I got my own bill and have never changed it since then. I've also been the most

[illegible] friendly who were working with MTN since early days when they were introducing new coverage in the country. People like Aggrey K. Mungyo Phillip Beatrice Zak Van Vuren, Sheila Ntanga waye, Tina Nyambunga and many more became lifelong friends and colleagues.

WHAT'S UP

Kalungi Kabuye

Of late, my loyalty to MTN is being stretched almost to the limit

My loyalty being them. But of late my loyalty is being stretched almost to the limit, and here is why.

First, there is this thing called CUG (caller user group) where subscribers can call each other for free, rather, for a certain amount low fee a month.

It was introduced in our company about two years ago, but after some time I opted out because it was not working for me. 90% of all the calls I make are to people outside the company, and there is always the interest if I needed to speak to a work mate.

So I instructed MTN to take me off the CUG network. I called everybody knew and went to several customer service centres and eventually got around to a guy named Dennis.

After several e-mails and un-returned calls I was removed from the CUG, but the next month I was put back on.

We got all time credited automatically, but every month when I get the sms, I was back on the CUG.

I would then try to get Dennis to get me off, which on average took about a week to achieve.

The last on for more than a year where every month I would be trying to get Dennis to work out things.

Finally, but when he was on leave it would take just one e-mail and a day.

I miss Dennis is a busy man, with little time to deal with the likes of me.

Eventually I got permanently removed from that CUG list, but Dennis needed to be reminded every month to lead my (and a few others') airtime separately, and eventually he decided he didn't want to deal

guy sends an e-mail to Dennis to load two weeks on 3 to average.

Lately there is a new twist because I get less airtime than I'm entitled to.

This month that nice guy Dennis only loaded about 25% of what I was supposed to get, I have no idea why.

So again on IT guy sent Dennis an e-mail to load the rest but by the time of writing this column nothing had happened yet.

Told you Dennis was a busy man. Someone I tolerated my story to said I must be a very patient person, that you don't mess with a Ugandan and his airtime.

Away from Dennis, I belong to a telephone chat room where for shs10 you can send a message to all the people subscribed to it.

For the last few months my messages do not get through, although sh226 is deducted every single time.

I thought it was an SMS-Media problem, and I badged Simon Kahere, email to death about it. But it seems to be a network problem.

What irks my bugs is that my friends are very active on the chat and I want to be too, but I can't.

And there are always those 3s-girls who ask for me to yell, it seems to take for ever and when I eventually write, it does not get to them in time. Ever to ask for your airtime back?

So right now I'm not loving MTN very much, and then they send Mpologama into my life, without notice, unsolicited, and definitely unwanted. Finally our IT guy says that Dennis is actually a nice guy if you meet him in a pub.

Ok, I want to meet Dennis in a pub? I'm not sure, depends on what time it is, how

BROADWAY HD

SHE LOVES ME SYNOPSIS

Now available ONLY through July 7th at the On-Demand Encore of the LIVE broadcast on BroadwayHD.com!

BroadwayHD and Roundabout Theatre Company in association with Ellen M. Krass Productions are thrilled to present for the very first time on LIVE BROADCAST performance of a major Broadway show. This groundbreaking presentation of the critically acclaimed Tony Award®-winning musical She Loves Me transports the power and excitement of LIVE theater to audiences across the world on screen in real time and now **home including availability through Roku and AppleTV with your BroadwayHD annual subscription** will be shared only with a select LIVE event on June 10th with friends and family.

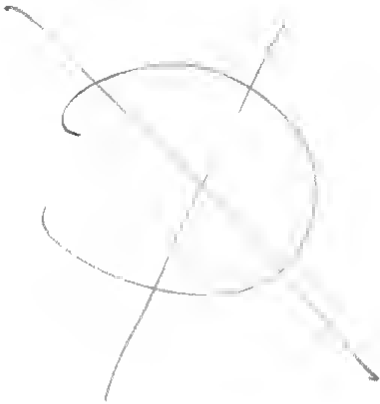

She Loves Me follows Amalia and Georg, two perfumers clerks who over time make the best of their stormy bumping heads while on the job; the sparring coworkers can't seem to find common ground. But little do they know the letter mates pen pals that, for a time, been falling for happen to be each other. Will be a romance to blossom once their identities are finally revealed?

Helloween or **Hellowe'en** (a contraction of All Hallows' Evening)[1] also known as **Allhalloween**,[2] **All Hallows' Eve**,[3] or **All Saints' Eve**,[4] is a celebration observed in a number of countries on 31 October, the eve of the Western Christian feast of All Hallows' Day. It begins the three-day observance of Allhallowtide,[5] the time in the liturgical year dedicated to remembering the dead, including saints (hallows), martyrs, and all the faithful departed.[6]

It is widely believed that many Halloween traditions originated from Celtic harvest festivals which may have pagan roots, particularly the Gaelic festival Samhain, and that this festival was Christianized as Halloween.[7][8][9][10] Some academics, however, support the view that Halloween began independently as a solely Christian holy day.[11][12][13]

Halloween activities include trick-or-treating (or the related guising), attending Halloween costume parties, decorating, carving pumpkins into jack-o'-lanterns, lighting bonfires, apple bobbing and divination games, playing pranks, visiting haunted attractions, telling scary stories and watching horror films. In many parts of the world, the Christian religious observances of All Hallows' Eve, including attending church services and lighting candles on the graves of the dead, remain popular,[14][15] although elsewhere it is a more commercial and secular celebration.[16][17] Some Christians historically abstained from meat on All Hallows' Eve,[18][19] a tradition reflected in the eating of certain foods on this vigil day, including apples, potato pancakes and soul cakes.[20][21][22]

Step 3 Make a Test Call Using OBiTALK

If any one, you may place a test call to the OBi Number below

OBiTALK Test No

Dial **9 followed by 222 222 222

Your OBi is ready to make FREE calls to other OBi end-points using the **OBiTALK** network. On the bottom of your unit, you will see a 9-digit OBi Number. This is your OBi number. Give this number to your friends, family and colleagues so they can call you from their OBi device or using the OBiON iPhone and Android apps for smart phones.

To use the **OBiTALK** network, all you have to do is install your OBi, pick up the phone and then call your friends by dialing **9 and their nine-digit OBi Number.

Step 4 Set-Up an OBiTALK Account Then Add Your OBi to the Account

Go to **www obitalk.com**

Register for an OBiTALK account. This will allow you to easily activate devices and add any commercial VoIP services used with your OBi

The first time you log-in to OBiTALK a pop-up window will appear allowing you to add your device

Click "Yes" to add "your OBi Device" to the OBiTALK Dashboard. After adding your device you will be able to set up voice services and other configuration information. Multiple devices may be added to a single account.

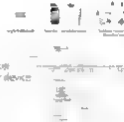

Follow the on-screen instructions to add your OBi device to your OBiTALK account.

Once added, you will be directed to the Device Configuration page

Set your OBi display name, time zone, and daylight savings values

Select the "Save Changes" button

Step 5 Set-Up VoIP Services

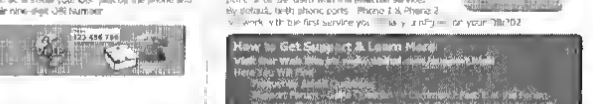

After you register and add your OBi device at www.obitalk.com, the OBi Device Configuration page will help you set-up commercial VoIP services such as the Google Voice® communication service.

Do this by selecting the **Google Voice Set-Up** button. You may also select from any one of the other listed service providers. If your service is not there, you may use the Generic Service Provider option.

Generally, all you will need to set-up a service is the User Name and Password for the service

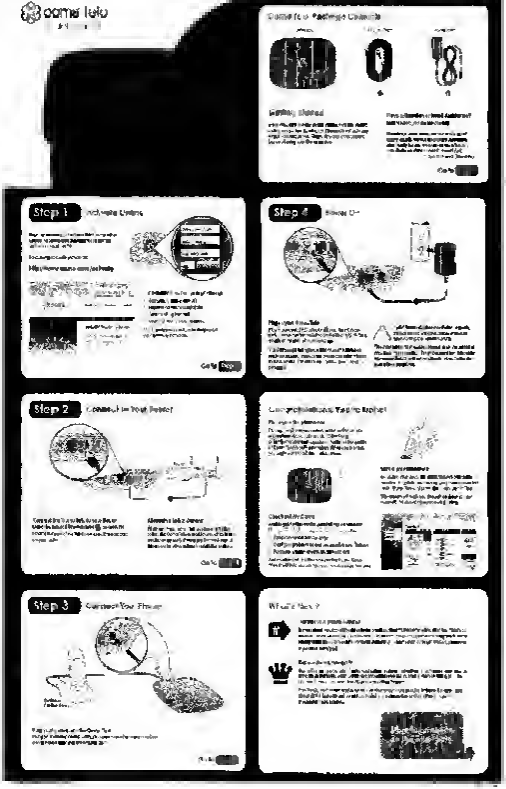

Note: You will need to choose what phone port, if any, to be used with the selected service. By default, both phone ports, Phone 1 & Phone 2 will work with the first service you add. If you only plan on using your OBi202

Windows® Fax and Scan

[illegible]

FAX You can send and receive faxes (documents) on your computer (a.k.a. without using a fax machine). You can also print a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer is inside an alarm system, connect a phone line splitter and then connect the splitter to your computer.

2. On the taskbar, click **Start**, click **Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem and then enter your fax information.

To connect to a fax server instead of a modem, contact your network administrator for more help with faxing, click the **Help** button on the toolbar.

SCAN After you've added a scanner to your computer, you can scan new documents or pictures (photos) before you e-mail them, and then edit your scanner settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner and then [illegible]

2. In Windows Vista, click the Start button, type **scan**, and then press ENTER.

   In Windows XP, on the taskbar, click **Start**, click **Control Panel**, click **Scanners and Cameras**, and then double-click **New Scan**.

3. Follow the instructions in the wizard to select your scanner and then [illegible]

After you've scanned a picture, you can edit it by using the tools in the toolbar. For more help with scanning, click the **Help** button on the toolbar.

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will guide you in testing your HP Fax product using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link at the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions above.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy services.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the Automatic product phone to **Every Error** before attempting a test fax. This way, even if the send fax fails, an error code will be generated that will steps you in future troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page blank test white test fax to **1-866-fax4hpsvc (1-866-473-2983)**
2. When your fax is received by the HP Test Fax product we will generate a return fax to you within the minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the fax of your fax machine. Consult the user manual that came with the product for proper steps and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax product on the operator does not match the number of the phone line connected to the fax. Also, ensure that the fax phone provides the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Nowy Prezes Zarządu

Firma, czując, że nadszedł czas na wstrząs zatrudniła nowego prezesa zarządu. Nowy szef jest zdecydowany, żeby pozbyć się wszystkich nierobów.

Podczas wycieczki po firmie prezes zarządu dostrzega lenia, który pełera się o ścianę. Pomieszczanie jest pełne pracowników, szef chce im pokazać, że nie ma z nim żartów.

Podchodzi do lenia i pyta.

- Ile zarabiasz na tydzień?

Zarabiam 300 dolarów. Dlaczego? - odpowiada niezrażony młody człowiek.

Prezes zarządu wręcza facetowi 300 dolarów w gotówce i krzyczy:

- Masz tu swoją tygodniówkę, a teraz SPADAJ i nie wracaj!

Czując się całkiem dobrze po swoim pierwszym zwolnieniu prezes zarządu rozgląda się po pomieszczeniu i pyta.

- Czy kimkolwiek wie, po ten wałkoń tutaj robił?

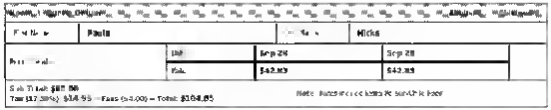

Jeden z pracowników z głupkowatym uśmiechem wyjaśnił:

Przywiózł pizzę.

The New Reality

bet you are s. re A gry t× And confused. These are absolu ely rational and appropriate re-
sponses to the global credit crisis that erupted in 2008 and continues to send tremors through every household in America And I do mean every household No matter how conscientious you have been with managing your money, the events of 2008 have battered us all.

The one in 10 homeowners who are at risk of facing foreclosure on their homes are obviously scared, but so too are the 9 out of 10 homeowners who can afford their mortgage but are watching plummeting home values jeopardize their financial security

It's *not* just the overreaching Wall Street firms who are paying the price for those risky investments. Every U S. taxpayer is now on the hook for

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Bruce H Edwards, Ph D
Professor of Mathematics
University of Florida

Professor Bruce H Edwards has been a Professor of Mathematics at the University of Florida since 1976 He received his B S in Mathematics from Stanford University in 1968 and his Ph D in Mathematics from Dartmouth College in 1976 From 1968 to 1972, he was a Peace Corps volunteer in Colombia, where he taught mathematics (in Spanish) at Universidad Pedagógica y Tecnológica de Colombia

Professor Edwards's early research interests were in the broad area of pure mathematics called algebra His dissertation in quadratic forms was titled "Induction Techniques and Periodicity in Clifford Algebras" Beginning in 1978, Professor Edwards became interested in applied mathematics while working summers for NASA at the Langley Research Center in Virginia This work led to his research in numerical analysis and the solution of differential equations During his sabbatical year 1984 to 1985 he worked on two-point boundary value problems with Professor Lee Xanthis at the Polytechnic of Central London Professor Edwards's current research is focused on the algorithm called CORDIC that is used in computers and graphing calculators for calculating function values

Professor Edwards has coauthored a number of mathematics textbooks with Professor Ron Larson of Penn State Erie, The Behrend College Together they have published texts in calculus, applied calculus, linear algebra, finite mathematics, algebra, trigonometry and precalculus

Over the years, Professor Edwards has received many teaching awards at the University of Florida He was named Teacher of the Year in the College of Liberal Arts and Sciences in 1979 1981 and 1990 In addition, he was named the College of Liberal Arts and Sciences Student Council Teacher of the Year and the University of Florida Honors Program Teacher of the Year in 1990 He also served as the Distinguished Alumni Professor for the UF Alumni Association from 1991 to 1993 The winners of this two-year award are selected by graduates of the university The Florida Section of the Mathematical Association of America awarded Professor Edwards the Distinguished Service Award in 1995 for his work in mathematics education for the state of Florida His textbooks have been honored with various awards from the Text and Academic Authors Association

Professor Edwards has taught a wide range of mathematics courses at the University of Florida, from first-year calculus to graduate level classes in algebra and numerical analysis He particularly enjoys teaching calculus to freshman because of the beauty of the subject and the enthusiasm of the students

Professor Edwards has been a frequent speaker at both research conferences and meetings of the National Council of Teachers of Mathematics He has spoken on issues relating to the Advanced Placement calculus examination especially on the use of graphing calculators

Professor Edwards has taught three other Great Courses, *Understanding Calculus: Problems, Solutions, and Tips*, *Mathematics Describing the Real World*, *Precalculus and Trigonometry* and *Prove It: The Art of Mathematical Argument* ■

Random Stuff Sent From Your Fax Machine
Fax something interesting to 1-510-545-0390

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1-510-545-0390 (your fax will never notice, maybe) and it should appear here within a couple of minutes. (The number is in Northern California, USA. Long distance charges may apply.) Keep it clean & legal.

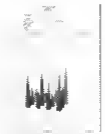

Fax single-page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to strip off the top few inches of the page where your company name and fax number should appear, but make no promises that this will actually work.

Get an e-mail alert when FaxToy receives a new fax.

Registration Information

THREE EASY WAYS TO REGISTER:

Online
www.academyhealth.org/meetingsonline
(credit card payments only)

Fax
202.292.6600 (credit card payments only)

Mail
Make check or original purchase order payable to AcademyHealth, and mail to:
AcademyHealth
Annual Research Meeting
1150 17th Street, NW, Suite 600
Washington, D.C. 20036

All registrations must include payment information to be processed. We accept VISA, MasterCard, Discover, or American Express. AcademyHealth's Tax ID number is 53-1209918.

REGISTRATION DEADLINES

To register at the early rate, your form and payment must be received by the deadline listed. Only early registrants will receive the reduced rate. Note that April 7 is the last day to register by mail. The postmark you should use is May 6. After May 6, all registrants must be onsite on-site and are subject to the on-site rate.

CONFIRMATION NOTICES

Registrations are confirmed by e-mail. If you have any questions regarding the registration form, please call 202.292.6794 or e-mail registration@academyhealth.org.

CANCELLATIONS

Cancellations must be received in writing before April 7 in order to receive a refund, less a $100 processing charge. The refund policy applies to the conference and the postdoctoral seminars. Between April 7 and May 6, cancellations will be assessed a $50 processing fee. No refunds will be issued for cancellations received after April 7. Registration fees for cancelled registrants may not be applied to future AcademyHealth meetings.

EXHIBITIONS/MODIFICATIONS

All exhibitor fees and advertising will be assessed a $50 processing fee. Modifications will be accepted only once per registrant and must include written notification from the original registrant and a completed registration form for the substitute participant. If a non-member substitutes for a member, the non-member rate will apply and the difference must be paid prior to the conference or onsite.

SPECIAL NEEDS

Persons with disabilities or special needs should send a description of any services needed to registration@academyhealth.org.

REGISTRATION RATES

The registration fee includes three breakfasts, three lunches, two receptions, refreshment breaks, and all conference materials.

Individual Member
A current member of AcademyHealth receives a discounted registration rate. Membership must be current at time of registration to receive rate. Membership must be renewed if you would like to become a member, you may renew or join when you register for the conference and receive the discount. If you have questions about membership, call Member Services at 202.292.6700.

Fellow
Fellows, including clinical fellows and post-doctoral trainees appointed to positions granting a stipend and allowing for advanced study or research, at an academic or training institution. Fellows do not include faculty appointments or regular job appointments.

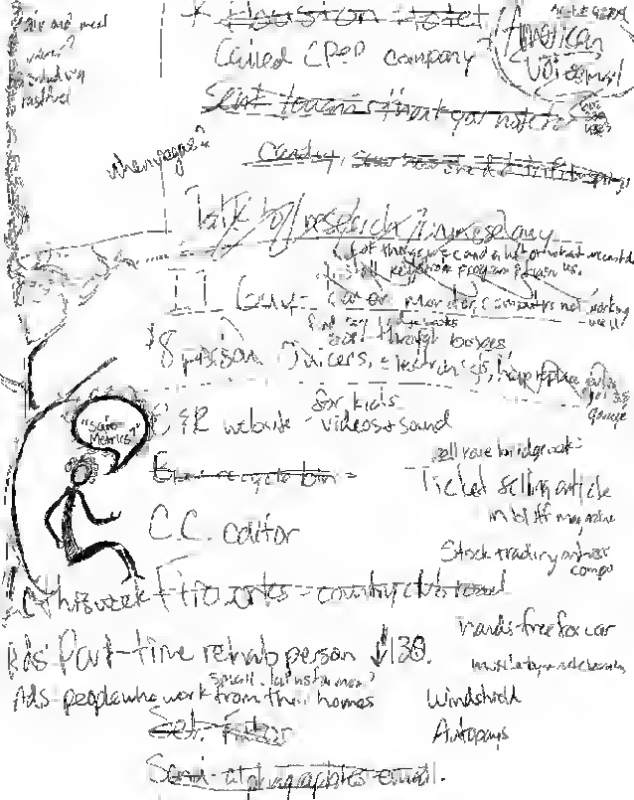

Student
Students enrolled full-time at the time of the meeting are eligible for the reduced student rate. You must include documentation of full-time student status (e.g., legible copy of current ID with valid expiration date or letter from departmental program head) with the registration form. If documentation is not received, the individual rate will apply. AcademyHealth cohort or fellowship programs do not qualify for the student rate.

Organizational Affiliate
Organizational affiliates of AcademyHealth are eligible to receive a discounted rate for up to five individual registrants for each of its affiliates, 10 for supporting affiliates and 15 for contributing affiliates. To find out if your organization is a current member of AcademyHealth, visit www.academyhealth.org/membership/affiliates.html.

Speaker
All speakers participating on a panel at the meeting are entitled to the speaker rate. Poster presenters must register for the conference and are not eligible for the speaker rate. If you have any questions about the speaker rate, please call 202.292.6759.

Daily
The daily rate includes all conference materials, sessions, and meal functions for the specified day only.

AcademyHealth is the professional home for health services researchers, policy analysts, and practitioners, and a leading, non-partisan resource for the best in health research and policy. Drawing from the strengths of more than 3,500 individuals and 130 organizations, AcademyHealth provides a forum for its members to learn the latest research, review and analyze health policy, and network with their peers. Guidelines for managing Web files and links

This topic provides reference information about

Managing links

Managing and naming supporting files

Testing links

More information

Managing links

When you create Web pages, Microsoft Word manages the supporting files and plans the links and hyperlinks so that the images appear and the links work when the pages are placed on the final Web server.

When all the files — such as those for bullets, navigational buttons, background textures, graphics, and Web pages you create hyperlinks to — will be published on the same Web server, Word maintains the hyperlinks as relative links, because using relative links makes it easier to move supporting files from one location to another.

Hyperlinks to Web sites on other servers — for example, a list of your favorite places on the Web — will be maintained as absolute links — that is, as fixed file locations.

When you save your Web pages to a different location, links that can't be converted to relative links remain as absolute links.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

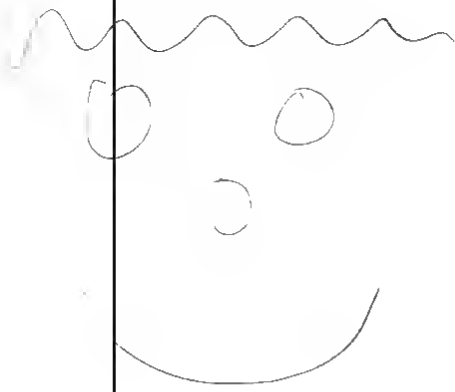

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. That site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

IMPORTANT SAFEGUARDS

Definitions

Whenever used the following terms identify safety and property damage messages and designate a level of hazard seriousness.

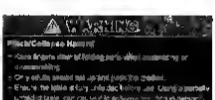

⚠ This is the safety alert symbol. It alerts you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

DANGER Indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury. Usage of this signal word is limited to the most extreme situations.

WARNING Indicates a potentially hazardous situation, which, if not avoided, could result in death or serious injury.

CAUTION Indicates a potentially hazardous situation which if not avoided may result in minor/moderate injury.

NOTICE Addresses practices not related to personal injury, such as product and/or property damage.

⚠ WARNING
Electrical/Battery Hazard!
• Keep fingers clear of folding parts when assembling or disassembling.
• Only adults should set up and fold this product.
• Ensure the table is fully unfolding and locked in position before use. Failure to do so may result in injury.

READ ALL INSTRUCTIONS BEFORE USE.

⚠ **WARNING— To reduce the risk of fire electric shock, or serious personal injury:**

- This product is not intended for use by children and should not be set up by children. competent adult assembly/ disassembly is required.
- Never insert any body parts (e.g., fingers, hands) between the product hinges and folding parts, especially when setting up or folding for storage as a pinch hazard exist.

- Do not exceed the maximum weight limit of 22 lbs (9.98 kg) on the product as it is intended for lightweight items only. To avoid a tip over hazard place objects evenly around the surface.
- Do not sit, stand or jump on the product or use it as a stepladder.
- Always ensure the Legs of the product are fully extended and securely in place before each use. Periodically check the Legs to ensure they are securely positioned.
- Permanently discontinue use and discard this product if it is damaged.

⚠ **CAUTION- To reduce the risk of personal injury:**

- This product is intended solely for non-commercial, non-industrial, household use as a temporary table su tace- do not use outdoors or for any other purpose.
- Always use the product on a flat, level, stable surface.

NOTICE –To reduce the risk of product and/or property damage

- Do not place the product near heat or open flames.
- Do not place extremely hot objects (e.g., chafing dish, grill, heated pot/pan) on the product.

Battery Handling and Usage

WARNING Only adults should handle batteries.

Follow the battery manufacturer's safety and usage instructions.
Keep batteries away from children and pets.
Do not mix old and new batteries.
Do not mix alkaline, standard (Carbon-Zinc) or rechargeable (Nickel-Cadmium) batteries.
Insert the batteries observing the proper polarity (+/-). Failure to properly align the battery polarity can cause personal injury and/or property damage.
Remove spent or discharged batteries from the product.
Remove the batteries when not using the product for an extended period.
Never throw batteries into a fire. Do not expose batteries to fire or other heat sources.
Dispose or recycle spent/discharged batteries in compliance with all applicable laws. For detailed information contact your local solid waste authority.

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE.

Welding Procedure Qualification Record (WPAR)

Not to be confused with the WPS, the WPQR is a set of the elements typically comprising a WPS detailing the actual welding parameters recorded during the qualification test of a material (called a pWPS) the secretary or clerk, in some cases, may ask required by the standard material combination for the test piece and the subsequent range of qualification it all tests are proven satisfactory. The range of qualification is generally based on those variables which could have a significant effect on the metallurgical properties of a finished weld including:

- Material type and thickness
- Welding process
- Type of welding consumable
- Welder qualification
- Welding heat input
- Type of joint (i.e. butt weld, fillet weld etc)

For those tasked with verifying the suitability of WPSs for a particular application, the scope of qualification is a critical component of the WPQR since this enables a single WPQR to be used to qualify an unlimited number of WPSs.

A requirement of the current NSSS is that an Examiner or Examining Body shall verify that WPQRs are in accordance with BS EN ISO 15614-1. Preferably implemented by the Steelwork Contractor, the Examiner/Examining Body is normally responsible for completion and / or collation of the documents that comprise the WPQR.

Essentially, the WPQR of the documentary evidence to prove that the welding parameters used in the qualification test piece do not adversely affect the mechanical properties of the parent material. In view of this, it is recommended that laboratories undertaking the required non-destructive and destructive testing of qualification test pieces are UKAS accredited.

Welding Procedure Specification (WPS)

Usually a set of 1 of a single sheet document the WPS is the final link in the chain of documents required to demonstrate welding process control. It comprises all the relevant information required by a qualified welder to create the welded joint and unlike the WPQR accompanying the WPQR which contains the actual welding parameters recorded during the qualification test we'd, the WPS gives an allowable range of welding parameters in the hot might be used. It is essential therefore that the WPS is readily available at the welder's workplace. Only one should and will exist a

Production of WPSs is normally the responsibility of the company RWC who should assess the type and number required based on the range of processes, joint types and the assets of work typically undertaken having identified and reviewed the number of WPSs required, each must be qualified by an approved the WPQR. With that in mind, it is essential that the RWC and those reviewing the suitability of WPSs are fully aware of the fact that one WPQR can be used to support an unlimited number of WPSs providing they fall within the allowable range of qualification (i.e. those given in BS EN ISO 15614-1).

UKAS United Kingdom Accreditation Service

Key Points

1. WPSs are a requirement of the NSSS which states that they shall be available in accordance with BS EN ISO 15609-1 and tested in accordance with BS EN ISO 15614-1
2. Whether covering a broad range or joint specific all WPSs need to be supported by an appropriate Welding Procedure Qualification Record (WPQR)
3. Qualification of a WPS to BS EN ISO 15614 typically requires the formulation of 2 core documents – a preliminary Welding Procedure Specification (pWPS), a Welding Procedure Qualification Record (WPQR) and a Welding Procedure Specification (WPS)
4. The pWPS is a preliminary document based on the knowledge and / or past experience of the RWC. Most often it can not the suggested welding parameters in the pWPS will be subject to slight changes by the welder completing a relevant qualification test piece. These changes should be recorded on the pWPS in order to ensure that the actual parameters are incorporated in the subsequent WPQR.
5. The WPQR presents the documentary evidence required to show that the welding parameters used in the procedure qualification test piece do not adversely affect the mechanical properties of the parent material
6. One WPQR can be used to qualify an unlimited number of WPSs providing the parameters / variables fall within the allowable range of approved in these given in BS EN ISO 15614-1
7. The WPS gives the allowable range of welding parameters that can be used to complete a welded joint. It is essential therefore that WPSs are readily available at the welder's workplace, fully understood and adhered to

Windows® Fax and Scan

Create and send faxes, and scan documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator for more help with faxing. Click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, in the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

ASSEMBLY AND SET-UP

Inflating the Tires

To ensure safe, comfortable operation, the mountain bike tires must be inflated to the correct pressure.

Front Tire

1 Unscrew the valve cap. Press the pump connector hose firmly onto the valve. Inflate the tire to the recommended pressure.

Rear Tire

1 Remove the valve cap. Press the pump connector hose firmly onto the valve.

2 Inflate the tire to the recommended pressure. Remove the pump connector hose from the valve. Replace the valve cap.

WARNING

Do not use the Pocket Rocket for the rear tire as it may have inflated the tire to the same pressure as the front tire. This may damage the wheels and tires and cause an accident.

Note: The pressure recommended for your tires is printed on the tire sidewall. Do not inflate the tires to a pressure higher than the recommended pressure. Inflating the tires to a higher pressure than recommended may cause the tires to burst. This could potentially cause serious injury. Inflate the tires to the correct PSI. If you do not have a pressure gauge, inflate the tires until they feel hard when you press your thumb against them.

Testing the Brake

Before riding your bicycle, be sure to test the brakes. Squeeze the brake lever and attempt to move the bicycle forward. If the brake does not engage properly, refer to the instructions for adjusting the brakes in the following section.

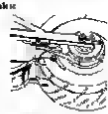

REPAIR AND MAINTENANCE

Only the basic maintenance procedures are described in this manual. Please take your bicycle to your local dealer for any more complex procedures.

❑ Adjusting the Brake

1 To adjust the brake, loosen the brake lever adjuster nut. Move the brake cable housing to the desired position. Tighten the adjuster nut. Make sure the cable housing is not too long or too short.

2 If adjusting the brake cable is not enough, loosen the brake cable bolt. Pull the brake cable tight. Tighten the bolt. Make sure the brake is properly adjusted.

WARNING

The brakes are capable of causing the bicycle to stop suddenly. If the brakes are applied too quickly, the rear wheel may lift off the ground. Sudden stops can cause you to lose control of the bicycle and fall. Always apply the brakes gradually.

Ultimate Banana Bread

From the episode: *Coffee Break Sweets*

Makes one 9-inch loaf

Be sure to use very ripe, heavily speckled (or even black) bananas in this recipe. This recipe can be made using 5 thawed frozen bananas, since they release a lot of liquid naturally. They can bypass the microwaving in step 2 and go directly into the fine-mesh strainer. Do not use a thawed frozen banana in step 4. It will be too soft to slice. Instead, simply sprinkle the top of the loaf with sugar. The test kitchen's preferred loaf pan measures 8¼ by 4½ inches. If you use a 9 by 5-inch loaf pan, start checking for doneness five minutes earlier than advised in the recipe. The texture is best when the loaf is eaten fresh, but it can be stored (until completely first) covered tightly with plastic wrap, for up to 3 days.

INGREDIENTS

- **1 3/4** cups (8 3/4 ounces) unbleached all-purpose flour
- **1** teaspoon baking soda
- **1/2** teaspoon table salt
- **6** large very ripe bananas (about 2 1/4 pounds) peeled (see note)
- **8** tablespoons (1 stick) unsalted butter Melted and cooled slightly
- **2** large eggs
- **3/4** cup (5 1/4 ounces) packed light brown sugar
- **1** teaspoon vanilla extract
- **1/2** cup walnuts , toasted and coarsely chopped (optional)
- **2** teaspoons granulated sugar

INSTRUCTIONS

1. Adjust oven rack to middle position and heat oven to 350 degrees. Spray 8½ by 4½-inch loaf pan with nonstick cooking spray. Whisk flour, baking soda, and salt together in large bowl.

2. Place 5 bananas in microwave-safe bowl; cover with plastic wrap and cut several steam vents in plastic with paring knife. Microwave on high power until bananas are soft and have released liquid, about 5 minutes. Transfer bananas to fine-mesh strainer placed over medium bowl and allow to drain, stirring occasionally, 15 minutes (you should have ½ to ¾ cup liquid).

3. Transfer liquid to medium saucepan and cook over medium-high heat until reduced to ¼ cup, about 5 minutes. Remove pan from heat, stir reduced liquid and bananas, and mash with potato masher until fairly smooth. Stir in butter, eggs, brown sugar, and vanilla.

4. Pour banana mixture and flour mixture and stir until just combined with some streaks of flour remaining. Gently fold in walnuts, if using. Scrape batter and prepared pan. Slice remaining banana diagonally and ¼

I propose to change the system so that when density card output is requested, plotted densities are punched out. In the normal case these would simply be the average densities. If the test code calls for E.N.D conversion, it would be the E.N.D densities that are punched out. If the test breaks down, e.g. because of range check failure, we would get cards punched out for individual strips, since individuals are plotted in that case.

I would appreciate your comments on this proposal by January 2, 1971.

QUEEN PALM CARE GUIDE

Easy as 1-2-3

Queen Palms are some of the most beautiful and most popular palms grown here in the desert. If given proper care, they will always be as green and full as when purchased.

1. WATERING

By far, couple 1 gallon of water is the most important ingredient for the well being of Queen Palms here in the desert. Queen Palms are tropical type palms, native to much wetter areas of the world. They can handle the extremes of our desert temperatures, but do need more water than nature provides. For most palms that don't appear healthy, think of properly applied water combined with nutrient deficiencies is usually the cause. A good rule of thumb is that it's practically impossible to over water a Queen Palm, especially during the intense heat of summer months!

When applying water to your is better? As a Queen Palm matures, it's roots spread wider but not much deeper than 18 to 24 inches. So make sure that as your tree grows to apply the water under every year. A good rule of thumb for this is to water an area at least 5 to 6' times as wide as the trunk diameter.

How often to water depends on many variables including current temperatures, soil conditions and recent rain fall (or lack of). To keep a good, happy level of moisture for Queen Palms, basic watering guidelines are as follows:

Season / Temp Range	Watering (per week)
Summer - Above 100°	4 or more times per week
Fall / 85° to 100°	2 to 3 times per week
Winter - Below 85°	1 to 2 times per week
Spring / 85° to 100°	2 to 3 times per week

NOTE: *Use as guideline. Adjustments are made to benefit Everyday light clay soil that don't have well duty natures. Use one per week. Loose sandy soil may need more. Heavy clay soil may need less water per week.*

2. FERTILIZING

Keeping Queen palms healthy has never been this easy!

Don't fall for expensive injections or spikes that many tree companies try to sell. We've taken the guesswork out of feeding Queen Palms. Our **Super Palm Juice®** has all of the major & micro nutrients to keep palms green & healthy in an easy to use liquid format that reaches the roots FAST!

Super Palm Juice is great for all varieties of palms and is an absolute must for Queen Palms!

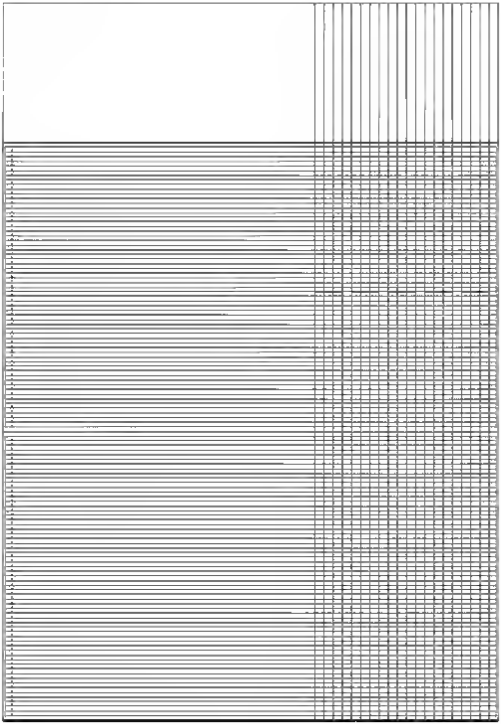

3. TRIMMING

Only remove fronds that hang downward (below horizontal). So why cut fronds about 2 "5" from trunk, using a cut that is parallel to the trunk. During Summer months it's common to get some brown tips. It's ok to just trim off the brown and leave the green portion of the frond. Trimming is usually only necessary once or twice a year.

How Can I Test My Fax Machine?

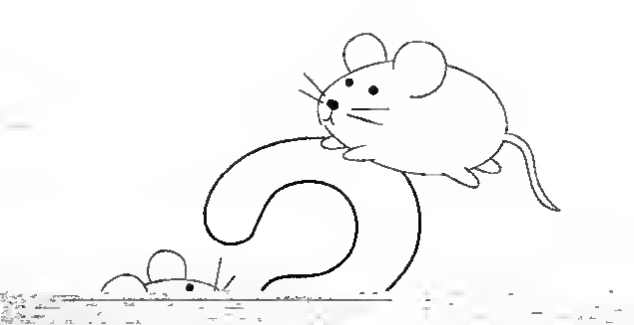

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to **1 855-330-1239** (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

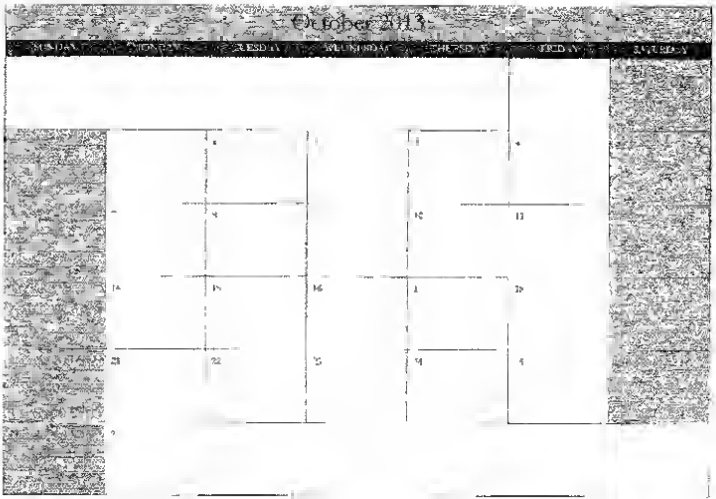

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Right now, the Comcast network carries two signals, **Analog** and **Digital**.

Analog doesn't have the necessary bandwidth to carry our ever-expanding library of content and other features.

To bring you better service, we're switching the **Analog** signal port on of our network to our advanced **All-Digital** signal.

to the citation(s) and/or penalty(ies).

If you are considering a request for an informal conference to discuss any issues related to this Citation and Notification of Penalty, you must take care to schedule it early enough to allow time to contest after the informal conference should you decide to do so. Please keep in mind that a request for an informal conference does not extend the Area Director's 15 working days or your receipt of this Citation. The running of this 15-day period is not affected by an informal conference.

If you decide to request an informal conference, please call or write the Area Director as soon as possible to schedule a conference. Any conference you request will be held as soon as practicable, usually within the next few days, and you will be informed of the date, time, and place of the conference. If you have been represented by counsel, please notify counsel of the conference arrangements. Failure to request an informal conference will not affect your right to contest the citations and proposed penalties. However, unless you inform the Area Director in writing that you intend to contest the citation(s) and/or proposed penalty(ies) within 15 working days after receipt, the citation(s) and the proposed penalties will become a final order of the Occupational Safety and Health Review Commission and may not be reviewed by any court or agency.

Right to Contest – You have the right to contest this Citation and Notification of Penalty. You may contest all citations or any individual citation. You may also contest proposed penalties and/or abatement dates without contesting the underlying violations. Unless you inform the Area Director in writing that you intend to contest the citation(s) and/or proposed penalty(ies) within 15 working days after receipt, the citation(s) and the proposed penalties will become a final order of the Occupational Safety and Health Review Commission and may not be reviewed by any court or agency.

Penalty Payment – Penalties are due within 15 calendar days of receipt of the notification unless contested. (See the enclosed booklet and the additional information and instructions for the Debt Collection Act of 1982.) Make your check or money order payable to "DOL-OSHA." Please indicate the inspection Number on the instrument.

OSHA does not agree to any restrictive endorsements or notations on any checks or money orders (for less than the full amount due, and will cash the check or money order as if these restrictions, conditions or endorsements do not exist.

Notification of Corrective Action – For each item on which you do not contest, you must provide *abatement certification* to the Area Director of the OSHA office from the citation and notification letter. The abatement certification is to be provided by letter within 10 calendar days after each abatement date. Abatement certification includes the date and method of abatement for each item. If the citation indicates that it was corrected during the inspection, no abatement certification letter is required for that item. The abatement certification letter must be posted at the location where the violation appeared and the corrective action took place or employees must otherwise be effectively informed about abatement activities. A compliance officer form letter is enclosed with this Citation. In addition, where the citation indicates that *abatement documentation* is necessary, evidence of the purchase or repair of equipment, shall be provided. Receipts or verification that abatement has occurred is required to be provided to the Area Director.

Employer Discrimination Unlawful – The law prohibits discrimination by an employer against an employee for filing a complaint or for exercising any rights under the Act. An employee who believes that he/she has been discriminated against may file a complaint no later than 30 days after the discrimination occurred with the U.S. Department of Labor Area Office at the address shown above.

Employer Rights and Responsibilities – The enclosed booklet (OSHA 2000) outlines additional employer rights and responsibilities and explains how to contest citations and proposed penalties.

Notice to Employees – The law gives employees the right to observe the inspection. They must also have access to the employer records and materials that are required by the OSHA standards or regulations. Employees or their representatives have the right to bring to the attention of the Area Director any violations they believe to exist or to be corrected. They also have the right to notify the Area Director or any representative of the Department of Labor conducting the inspection if they have been or are being adversely affected by any alleged violation. The employer must post this Notification of Penalty and any Citations at or near the place of the alleged violations for three days, or until the violations are corrected, whichever is longer, to inform employees of these matters. The employer must also post the Summary of Work-Related Injuries and Illnesses (OSHA 300A) for the establishment inspected.

Mrs. Cynthia McIntire

Dear Cynthia:

I'd like to increase the rent for 7 Northwoods Cir, Woburn MA 01801 from $1,650 to $1,750. This is to keep up with the maintenance cost, and fair market value. Similar properties rental prices are

5 Northwoods Cir, Woburn, MA. $1,895

11 Northwoods Cir, Woburn, MA $1,900

I believe the asking price of $1750 is still well below market value. Thanks for your consideration.

Best Regards,

Kean Wang

Adding an Insurance Name

TSC Staff
12/18/12 09:26 AM EST

We have trailed around the AIG (AIG NYSE) position for the last few months as the government has successfully navigated its way out of its interest in the company. Last week, the U.S. Treasury closed out the final 15% interest in AIG, that major overhang removal is a big positive for the shares. We thought we would get a lower price to get back in (they priced the deal at $32.50). But the shares didn't stay down at that level because the overhang has been lifted. Plus, the company has quickly moved to improve its overall operations by selling its ILFC stake and ownership in AIA.

With our restrictions now cleared, after you receive this Alert, we will purchase 500 shares at the bid/ask levels of $35.20/$35.25 -- starting small and building on the dips. The cash proceeds from the two recent transactions will not be used for buybacks but will likely improve its interest coverage ratio and lower its total leverage to appease the rating agencies and further bolster its balance sheet.

This company has been one of our favorite turnaround stories due to its legacy/core property/casualty business and an improving life insurance segment. The company is at the end of a period of deleveraging, which saw it sell many of its non-core businesses, including AIJCO Life, AIA Group (which was an IPO), AIG Edison/Star Life, Asset Management, Taiwan Life and most recently up to 90% of ILFC and the remaining 13.7% AIA. With the U.S. Treasury's recent sale of its final 234 million shares (15.9% stake), the company is finally out from its controversial bailout and can now focus on improving returns and gaining shareholder value. Importantly, management can now be performance to its compensation structure. That accountability should lead to more urgency at its management team.

The company has consolidated itself around two main business segments, life insurance and property casualty. Its Chartis Property/Casualty operations are benefiting from a cycle recovery that should yield better pricing as the company has already begun raising prices as actively with the improving U.S. economy. AIG has size and scale in this business. With $34.8 billion in net premiums and 7.4% in market share, it is the third largest in the industry. The division has a new head who is focusing on higher margin lines, a simpler structure in consumer and commercial, and expansion in growth markets.

The Life Insurance division SunAmerica is seeing a recovery on higher equity markets and a slightly higher yield curve, which we anticipate to sharpen further as the economy recovers. It has rebranded several products and is concentrating on sales growth. Key to this business will be the improvement of its distribution, which has steadily recovered, but we are anticipating more upside with better performance and the reduced government ownership. Finally, United Guaranty has a 35% market share in the private mortgage industry and management has stated the current book is generating a 20% return on equity (ROE) and that they have aggressive plans to expand internationally.

Management has targeted ROE at 10%, and on a recent call they noted that it feels as though they will get north of that number by 2015. The shares trade at 49% of book value vs. other property/casualty companies whose valuation is typically closer to 1x. Life insurance competitors trade at 0.8x vs. AIG's 0.49x. After this purchase, we'll own 500 shares of AIG, which will account for 0.51% of the portfolio.

For Your Safety – Registering your product will allow us to contact you in the unlikely event a safety notification is required under the Federal Consumer Safety Act.

Razones importantes para registrar su producto:

Oportunidad de GANAR – Con el registro de su producto le hacemos ingresar en el sorteo 'Give Away' de $100,000 que le da la oportunidad de ganar uno de los siguientes premios: un primer premio de $50,000, dos segundos premios de $5,000, cinco terceros premios de $1,000.

Servicio bajo Garantía – El llenar de esta tarjeta ayudará con un procedimiento más eficiente en el caso de tener algún problema con su producto, pero el cumplimentarla no garantiza que el servicio bajo garantía sea mejor.

Confirmación de propiedad – En el caso de una pérdida asegurada, como por incendio, inundación o robo, el registro previo servirá como prueba de la compra.

Para su seguridad – El registrar su producto nos permitirá ponernos en contacto con usted en el muy improbable caso que tuviera que emitir cualquier aviso de seguridad bajo la Ley Federal de Seguridad de los Productos para el Consumidor.
